BOTH DEAD.

Conductor Fillmore hastened to the engine as soon as the train stopped and found that both the engineer and firemen were dead at their post.

Both bodies were lying in front of the firebox beneath the tank and the mail car was on top of the tank.

Otherwise the train was uninjured. The steel framed cars

ASSAULT.

The trial of a Negro woman colored for an assault with a weapon committed in the city of San Francisco on August 7, 1911, at the corner of Willow and Broadway streets, West Berkeley, was taken into court before Judge Smith and a jury. The two men engaged in a quarrel and the woman was left standing between them and thrown out of the place, which is alleged to have returned and attacked Whittaker, with a knife and a long train case and cut him on the front of the throat, behind the jaw vein by a narrow margin.

Among the witnesses present were Charles W. Smith, 37, of 1010 Broadway; George S. Gordon, 37, of 1010 Broadway; Patton and Dr. J. H. Smith, of the

SCION OF NOBILITY IS SENT TO PRISON

Leon D. Newton, Late of Folsom Penitentiary, Given 5 Years in San Quentin.

With but a few weeks' freedom, Leon D. Newton, scion of the English nobility, was sentenced to another term in the State Penitentiary this morning.

It was only a short time ago that he was liberated from the prison at Folsom, and this time was sent to San Quentin for five years by Judge Melvin. He was given the limit allowed by law for petit larceny, with a prior conviction of burglary.

Attired in a neat suit of blue material, with a small stripe running through it, and a necktie blue as the azure above, Newton made a gentlemanly appearance in court this morning when he came up to answer a charge of having stolen some rings of small value from Ernest Mayrlich of 2323 Buena Vista Avenue, Alameda.

He pleaded guilty to the charge and waived time of sentence, and also admitted the prior conviction standing against him, and then made the following plea for the leniency of the court:

MAKES A PLEA.

"When I left Folsom prison a short time ago I went away from the prison with the best wishes of every one there. I was one of the most trusted men in the institution, and when I left it was to go and stay with a man whom I met there as a guard, who asked me to come and live with him for a time after I got my liberty. I went to his home in Alameda, but instead of getting into a place where I would find influences that would help me to keep straight, I found it anything but that, and got in with a very fast set, where there was a great deal of drinking, and it was only that I had been under the influence of liquor for several days prior to the act, that I am in my present predicament.

"I would like to ask for the leniency of the court, and would also state that I have a few friends yet who have not thrown me over who will come and see me occasionally, and also for the reason that I do not want to go back to Folsom, and face the men whose good wishes I took away from them with me. I will ask to be sent to San Quentin."

COURT'S REPLY.

In reply Judge Melvin said: "As to the last part of your request, I will grant it, but I doubt very much whether you are entitled to the leniency of this court. The District Attorney informs me that Warden Archibald Yell, wrote a personal letter to Mr. Mayrlich on your behalf, and that you treated this man's kindness by stealing from him.

"It is the judgment of this court that you be taken by the Sheriff of this

county and delivered to the Warden of San Quentin, and there be imprisoned for the term of five years."

WEARS SMITH'S SUIT.

Through a Folsom guard who visited the County Jail a few days ago, Jailer Harry Clark learned that the suit of clothes, of latest cut, that Newton wears, belonged to Defaulting Tax Collector A. J. Smith of San Francisco, who gave Newton the suit when he left prison. The guards also made up a purse for Newton, and he left the prison with \$50 in cash.

Newton is a young man, apparently about thirty years of age, and was convicted in San Francisco of receiving stolen goods from men engaged in robbing rooms. He was given two years for this crime, and on account of his good behavior was allowed credits sufficient to enable him to get out in fifteen months.

WANTS DAMAGES FOR HIS SKIN

SPOKANE, Oct. 15.—George A. Lovejoy, the Elk who was skinned to furnish grafts for a fellow Elk's wife suffering from severe burns, has brought suit against Dr. C. P. Thomas for \$10,000 as the value of 150 inches of skin which he says the doctor peeled off of his legs while under chloroform.

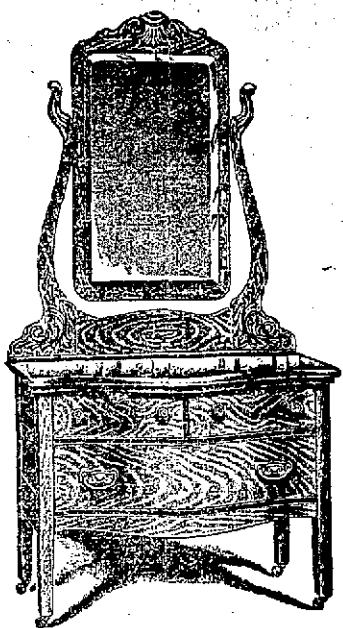

Lovejoy asserts that it was represented to him that the surgeon would only take from his thighs two or three strips, three or four inches long and three-fourths of an inch wide. When he got off the table he found that the front of his legs between knee and hip was stripped and it was ten days before he could get out of the hospital.

Mrs. Fred B. Searles, the original victim, was burned in an accident with a lamp at Lewiston, Idaho, and was brought here to St. Luke's Hospital for treatment. A number of Elks volunteered to furnish particles of skin, but Lovejoy proved such a promising subject that while under chloroform he was peeled for all the grafts necessary except some supplied by Mrs. Searles' husband and brother. The grafting operation was successful, but the woman was so weakened from long illness that she died.

ANOTHER RAILROAD TO LAKE COUNTY

NAPA, October 15.—Another railroad is to be built in Lake county, through Marin, Napa and Sonoma counties. The new road is planned by Clear Lake and the Southern Railroad Company. The new company has a large party of surveyors in the field at present above St. Helena and will commence grading for the road in a short time. The company will operate a ferry between the San Francisco and Marin county shores and connect with a line through Sonoma and Napa counties up through Conn. Chiles and Pope valleys to Butte Canyon and on to Lakeport. It will be an electric railroad and will greatly reduce the present time of transit. There will also be branch lines from Point San Quentin to San Rafael, in Marin county and from Reclamation to Petaluma.

Saturday afternoon condemnation suits were filed against eleven owners of property in Napa county who have refused rights of way through their lands for the railroad.

FINDS RELIC OF OTHER DAYS

LOVERS OF DICKENS MAY SEE SIGN THAT WAS REFERRED TO BY WRITER.

LONDON, October 16.—Dickens lovers have to thank that tireless authority on "Boz," Percy Fitzgerald, for pointing out that a curious old sign which was an unfailing object of interest to Dickens as a boy, and to which he often referred in later years still hangs in the Blackfriars road of London. This sign, which advertises a long established hardware firm, is a typical example of the queer trade emblems which from the sixteenth century distinguished practically every shop of any importance in the metropolis, but of which few specimens now exist. It represents a gold dog apparently licking something out of an overturned crock or pot and is generally referred to as "The Sign of the Dog and the Pot." Dickens evidently first discovered it in, as Fitzgerald says, "those heartrending blacking days in Warren & Co.'s factory, when the poor lad distracted his cares by noting all the odd things that met his eye." And he quotes the novelist as saying, of that time, "My usual way home—that is to Lane street, where he had a lodging so as to be nearer his family in the Marshalsea prison—was over Blackfriars bridge and down that turning in the Blackfriars road which has Stowland Hill's chapel on one side and the likeness of a golden dog licking a golden pot over a shop door on the other."

Fitzgerald adds: "When the little Boz saw it first it must have been about the twenties—1823 or 1824—and the dog has licked on ever since to this year of grace 1905. I should say there is no memorial of this kind at all associated with Boz that has stood in its place so long and so

undisturbed. I always wonder how it can have escaped, for some serious, pragmatic shopkeeper might have thought it a grotesque hindrance to his business."

It appears, however, that the "iron-mongers" who own the sign, far from being "problematic" are decidedly proud of it, and perhaps future American visitors may find interest in this relic of former days which is so closely associated with Dickens.

According to his friend, Theodore Watts-Dunton, Algernon Swinburne's magnus opus as a prose writer is still to come, but will appear before many days. "The story of the inception and progress of the book," says Watts-Dunton in the current British Weekly, "is a very interesting one and shows, as far as the mere conscientiousness of the literary artist goes, that Mr. Swinburne has never been surpassed by any writer. Many years ago—more than thirty—Mr. Swinburne determined to write an exhaustive book upon the Elizabethan dramatists. Long before he set pen to paper upon this subject his knowledge of it was probably greater than that of any man of his time. It is doubtful, indeed, whether interesting and important as the subject is, it is quite worth the time and pains which Mr. Swinburne, whose position is so great as an original writer has devoted to it.

"The book has been close upon completion for years, and Mr. Swinburne was only waiting in the hope that Mr. Bullen (The London publisher) would complete his services to students by bringing out a collection of Rowley's works. Year after year went on and Mr. Bullen has not yet seen his way to doing the world this literary service. Therefore it was necessary for the two quarto plays of Rowley which Mr. Swinburne had not read, to be studied in the British Museum. But during the time Mr. Swinburne had come to share Carlyle's dislike of reading in the British Museum and his friends could neither persuade him to go and read Rowley's uncollected quartos nor yet persuade him to leave these plays untouched and to give the world his study of Rowley as far as he knew them.

"At last, however, he was persuaded by a friend to go to the British Museum. The result was that they went and he who had never been seen in the museum for a quarter of a century was seen there again bending over Rowley's quartos and making extracts. The interesting feature connected with this story is a writer allowed a mass of work, to which he had given a considerable portion of his life, to remain scattered and lost in magazines for the sake of about ten pages. This shows two things: An amazing strength of the artistic conscience and an amazing faith that time would allow him to take nearly forty years over a book. It is almost as remarkable as the fact that Goethe completed his Faust in his eightieth year."

THE LATEST NEWS OF THE DAY--4:30 P. M.

CRIMINALS WRECK TRAIN

Switch Was Tampered With by Unknown Parties—Evidence Complete.

FRESNO, October 16.—The dead: ENGINEER WALTER M. COLE.

FIREMAN H. L. BUTTS. At the County Hospital, badly scalded and not expected to live is a tramp from San Francisco A. G. Knickerbocker.

The foregoing are the casualties in the wreck of the Southern Pacific Owl train, No. 25 northbound, at the south entrance of the railroad yards at 2:30 o'clock this morning. The locomotive struck a partly misplaced switch twenty-five feet farther it left the track, bumped over the cross ties, and turned over in a hole of its own burrowing, carrying down to their death Cole and Butts, who stuck to their posts.

LEFT THE TRACK. In leaving the rails, the locomotive, a big oil burner, carried the tender with it, and also the mail and combination baggage and buffet car. The tender turned almost upside down and was thrown almost at a right angle with the main track and the locomotive. The mail car following tore up the rails, struck the partly buried tender and jumped up in the air with the forward part of the car high up and resting on the tender.

MAIL CAR IN AIR. The forward part of the mail car was twenty feet in the air the rear part remaining on the ground. The forward trucks were torn from under and dropped to the earth. The forward trucks of the engine and both trucks of the tender were also torn loose, and all lay a mass of twisted iron in a bunch between the main and the side track which the mail car overhangs.

The combination baggage and mail car also left the track, but remained upright. The train was in charge of Conductor "Wing" Fillmore.

THE RESPONSIBILITY.

The responsibility for the accident is placed by the railroad people on the fact of the misplaced switch. Southern Pacific yard men on the day shift claimed this morning that the switch was blocked and opened sufficiently wide to permit the flanges of the wheels of the locomotive to turn over and the tender and cars the wrong way. It is a ball switch, with a spring on the inside of the track. Railroad men claim that if the switch had not been

purposely blocked open the ball would have dropped down and carried the track into their proper position by its heavy weight.

WRECKERS ON SCENE. It required two hours work by the wreckers before the engine was moved sufficiently to allow the bodies to be removed. The body of Fireman Butts was wedged between the seat and the bottom of the cab. It was not badly cut or bruised, but was fearfully scalded by the escaping steam. The right arm was thrown across the face as if to protect it from the terrible flood of steam and boiling water.

GETTING BODY OUT. A half hour more was required to extricate the body of Engineer Cole, who was found sitting upright on his seat with his hand on the throttle. This was probably the last act of his life and the fact that he remembered and executed his duty in the moment of death probably saved the lives of many passengers who would have been dashed to death if the steam had not been shut off. The body was frightfully mutilated and scalded by the escaping steam. The head was almost severed by an iron bar from the tender, which had been driven through the cab by the force of the wreck. The arm of the engineer was also found thrown across his face to protect it from the escaping steam.

WIFE AT SCENE

A pathetic feature is that Mrs. Cole, wife of the dead engineer, was on the 10:30 train from the south, and did not know her husband was dead until she went to the wreck. She had been telephoned that the Owl train had met with a mishap, but was not told of the fatalities.

The railroad authorities declare after an investigation that they have indubitable proof that the switch lock was criminally tampered with.

YELLOW FEVER CASES REPORTED

NEW ORLEANS, October 16.—New cases since 6 p. m. Sunday, 6, total to date, 3320. Deaths today, 2, total deaths, 433.

NEW BUILDING. F. C. Watson, the real estate man, has sold to Michael Carroll a lot 33 1-2x100 feet on the east side of San Pablo avenue immediately south of Hobart street. The property formerly belonged to Mrs. Anna Thorne. The consideration was \$11,000. There is now resting on it a small cottage, but this will be removed and in its stead will be erected a three-story brick building the work upon which will commence as soon as possible.

POLICE CLOSE ON THE TRAIL OF MURDERER

Expect to Land Milton Andrews Within Twenty-four Hours—Find the Woman and They Will Locate the Man.

BERKELEY, October 16.—Revelations made during the last forty-eight hours prove that William Ellis, who was the victim of Milton Andrews, when the latter tried to murder him last Wednesday in Berkeley, left Australia three months ago under a cloud. He was a bookmaker who welched on his bets and disappeared after falling to make good money which was due from him.

WAS WITH ANDREWS. It has been shown by newspaper accounts printed in Australia three months ago that Ellis was a companion there of Milton Andrews, the latter posing at that time as an American millionaire, going under the name of Clayton Hill.

Ellis has admitted during the last forty-eight hours, after being confronted with these newspaper accounts of his affairs in Australia, that he did leave as described with Andrews under the circumstances which the Australian papers give an account of. He declares, however, that the bond which he had in a club of bookmakers was sufficient to protect those who failed to receive payment on bets they had made with him.

CALLED HIMSELF LEE. He used the name of Lee on the steamer to America supposedly because he wished to begin life anew in America and to avoid being reminded of his career in Australia, and particularly its ending. Ellis has been thoroughly identified by Barney Bernard, the actor, who knew him in Australia as a bookmaker, and a member of the Kensington Club. He has also been identified by Quartermaster Frank Hardy of the steamer Sonoma. Hardy knew Ellis in Australia and saw him repeatedly on

the steamer Sonoma, when he came over to America. He said that Ellis bore the ordinary reputation of a bookmaker, was a former jockey and was called "Friday Ellis" in Australia. He got the name "Friday," because he once rode a horse in the steeple chase race, which was named "Friday," and which won at a long price, under Ellis' jockeyship.

NOT A SAINT. The police are satisfied that while Ellis was not by any means a saint in Australia, and that he did not live up to the standard of a respectable racing man, he was still far from being a crook of the same character as Milton Andrews, his associate on the trip to America. Andrews was a murderer, and Ellis was practically his dupe, and later his intended victim, when the scene was set for his butchery in the cottage at Berkeley.

Today the doctors at the Roosevelt Hospital issued orders that no further interviews with Ellis would be permitted by any one, as the patient's condition is regarded as being worse. The man has been interviewed by fifty people in the last six days, despite the fact that he has a big hole in his head. Ordinarily, admittance would be denied to all visitors.

SEARCH FOR WOMAN. The attention of the police is devoted now to the search for Andrews and his companion, and as an aid to that search, a diligent effort is being made to identify the woman companion of Andrews. If a photograph of her can be procured it is believed that she will be recognized when seen, and that Andrews' capture will follow at once. He is supposed to be in hiding in San Francisco just as he did in Denver a year ago after the killing of Bessie Bouten. At that time he hid in

Denver for two months, according to the story he told Ellis in Australia, and his present female companion brought him food to his hiding place in Denver during that time. When the two months were ended the pair made their escape to Australia. They pursued their career there, and met Ellis there and deceived him to America planning to use him as a confederate if he would be willing, or as a victim if he should be obstinate and unsatisfactory.

IN ROGUE'S GALLERY. The police are now searching the records at San Quentin for a picture of a woman who corresponds to the description Ellis has given of Andrews' present female companion. It is possible that the woman who was sent up there from Los Angeles for diamond robbery three years ago under the name of Nina Huntley, is Andrews' present companion. A description corresponds to that which Ellis has given of the woman now with Andrews, and if a photograph of her can be shown to Ellis the question will be settled whether or not she is the same woman who was sent up in Los Angeles and discharged from San Quentin, and who then became Andrews' associate and alleged wife.

This Huntley woman was about 15 years old when sent up from Los Angeles. She was married when 16 and was implicated in an attempt to rob her husband of valuable diamonds. She stayed one year in San Quentin and upon her release disappeared. She had a peculiar habit of dropping her lower jaw, and the same peculiarity is said by Ellis to have been a habit of Andrews' present female companion. Both women had a habit of shaving their hair back of their ears, and a number of other points of identification seem to indicate that Nina Huntley and "Mrs. Milton Andrews" are one and the same person.

The police expect to land Andrews within twenty-four hours. He is in San Francisco.

MOTHER DID NOT FORCE CHILD NOT TO ADVANCE KING EDWARD AT CEREMONY

MILWAUKEE, Oct. 16.—Mrs. Jacob Heyl denied that her mother bothered her into marrying the husband of her dead sister. The flat denial came today in the course of an examination of Mrs. Heyl, heir to practically all of the Schandens' millions, before Judge Carpenter, in the contest of the will of Mrs. Loretta Schandens by Mrs. Louis F. Frank and Emil Schandens, the other two children.

Mrs. Heyl admitted that as a girl she "made faces" at the man who is now her husband and through whose efforts it is alleged she is the residuary legatee of the vast estate of the Schandens.

WASHINGTON, Oct. 16.—The motion to advance the hearing in the case of the State of Kentucky vs. Jas. Howard, convicted of complicity in the murder of Governor Goebel, made in the Supreme Court of the United States last Tuesday, was today denied by the court. The case already has an advanced place on the docket and probably will be heard in December in the regular order of business.

WERE BEATING A HELPLESS MAN

SAN FRANCISCO, October 16.—While engaged in beating a helpless victim, Thomas King and William Moore were arrested at 4 o'clock this morning at the corner of Fourth and Mission streets, by Policemen E. T. Cronin and Patrick Sullivan. A third man who was with them made his escape. The policemen were summoned by the cries of Henry J. Johnson of 3182 Twenty-third street, whom they found lying upon the sidewalk with the three men standing over him. At the approach of the policemen the three men ran, but two of them were captured.

As soon as Johnson could regain his breath he accused the men of robbery. He said that he had been drinking in a "mission street" saloon until nearly 1 o'clock with some friends. As he left the saloon to take a Mission street car on his way home, he was followed by the three men. They overtook him at the corner. Neither asked him for money, but immediately assaulted him. He tried to put up a fight, but was soon overpowered. While he was lying upon the sidewalk \$11 was taken from his pocket. On Johnson's statement, King and Moore were formerly charged with robbery. Before Police Judge Cabaniss this morning they asked for time in which to prepare their defense. The police believe that the robbers have long records. Sergeant Bainbridge of the Identification Bureau is of the same opinion, but he has been unable to trace it.

LONDON, October 16.—King Edward, who was accompanied by Queen Alexandra and the Prince and Princess of Wales, today laid the foundation stone of the immense general new post office buildings on the site of Newgate street, formerly occupied by Christ's Hospital, better known as the Bluecoat School. The King concluded a brief speech by saying that he earnestly hoped the additional facilities for inter-communication would assist in establishing among the nations of the world peace and good will which I have so much at heart.

PRESIDENT MAKES A NEW ORDER

WASHINGTON, Oct. 16.—The President today through the State Department published an executive order of consequence to every employee in the Civil Service of the United States. No explanation of the underlying reason for its issuance is given. The order is as follows: "No officer or employee of the Government shall directly or indirectly instruct or be concerned in any manner in the instruction of any person or classes of persons with a view to their special preparation for the examination of the United States Civil Service Commission. "Theodore Roosevelt.

FIRE IN FRUITVALE. FRUITVALE, October 16.—A fire in the laundry works on Fruitvale avenue, near the railroad, created considerable excitement on Sunday and caused about \$100 damages. It is supposed to have originated by spontaneous combustion of refuse.

DIED. UNDERWOOD—In Fruitvale, October 15, 1905, Ann Eliza Underwood, beloved mother of Mrs. H. Hubbard, Charles and B. E. Underwood, Mrs. A. G. Annis, Mrs. J. Duarte and Mrs. N. Phillips, a native of New York, aged 82 years, 11 months, 12 days. BRAWLEY—In this city, Oct. 15, 1905, Ann, beloved wife of John Brawley and mother of Mrs. Eliza Ward, a native of Ireland, aged 60.

WOULD PREVENT WEDDING

Mrs. Edna Graw, a nineteen-year-old waitress, employed at the Victor Restaurant, was reported to the police this afternoon by Miss Maude A. Figueira, her aunt, as missing. Miss Graw is alleged to have eloped with Walter Kerr and both Miss Figueira and Mrs. Graw, the mother, are very anxious to locate her to prevent a wedding.

TO PASS THE FRANCHISE THIS EVENING

Council Expected to Close the Issue so That Improvements Can Be Taken Up.

The final passage of the ordinance awarding the Home Telephone Company a franchise to install a competing plant in the city of Oakland comes up before the City Council this evening. According to the last vote of the City Council, which stood 8 to 3 in favor of the franchise, there seems to be little doubt but what the franchise will be finally awarded to the highest bidder.

The Councilmen who put themselves on record as favoring the franchise were: BURNS, ELLIOT, DONALDSON, MEESE, MADAM, PENDLETON, THURSTON, FITZGERALD.

Those opposed to the franchise were Aitken, Bacous and Hahn. It is probable that the representatives of the Sunset Telephone Company will make a desperate effort to secure further delay. At every meeting of the City Council the attorneys of the Sunset Company have pleaded for the delay of a minute, an hour, a week or a month—anything they could get.

At the last meeting of the Council the majority of the members present decided that ample time had been given for the Sunset Company to make any objection it might have to the Home Company and proceeded to a vote, despite the frantic appeal of the paid representatives of the Sunset Company. The opinion of the majority of the City Council is that the telephone matter should be cleared up, so that the city fathers will be able to take up more weighty things pertaining to the welfare of the city. There are a dozen permanent improvements which have been waiting the disposition of the telephone question.

The purchase of Adams' Point, and the "Willows" by bond issue, the improvement of the Sixteenth Street depot, and the expenditure of various sums for street and park betterment in the seven wards, and other weighty matters have been waiting on the eventual disposition of the telephone question and the majority of the Council deems action is now a necessity.

Mayor Mott is heartily in accord with the City Council, and is anxious to take up the question dealing with the betterment of the city.

MASONS ARE IN SESSION

WASHINGTON, October 16.—The Supreme Council of Ancient and Accepted Scottish Rite Masons met in biennial session here today. The council is composed of one deputy from each jurisdiction, elected for life, twenty-six in all. They were all present with the exception of Senator Teller, of Colorado, who was kept away by the recent death of his brother. Deputy Pratt, of Oregon, who was stricken with paralysis upon his arrival here, is reported better, but not able to attend the council.

The session was called to order today by the Grand Commander, James D. Richardson, of Tennessee. Addressing the council, he said that the members of the council might pay their respects to President Roosevelt.

SEVENTEEN INJURED IN TRAIN WRECK. PUEBLO, Colo., October 6.—Seventeen persons were injured, one perhaps fatally, by the wrecking of westbound Missouri-Pacific passenger train No. 7 at Kithurn, sixty-nine miles east of Pueblo, at 6:30 o'clock this morning. The accident was caused by spreading rails. The last three cars of the train, Pullman sleeper, a tourist sleeper and a day coach, were overturned.

The injured: W. J. Windie, Salem, Kas., back injured, fracture feared; may die. E. Britner, Los Angeles, hips crushed; internal injuries.

M. D. Allen, Arrington, Colo., deep scalp gashes. Miss Ruth Connor, Roadport, Mo., face badly cut.

PARKHURST ON IS CHEERED BY NEW PLANS OF BACK FROM TRIP TO FAIR

NEW YORK, October 16.—Preaching yesterday in the Madison-Avenue Presbyterian Church upon the results of the insurance investigation, Rev. Dr. Parkhurst said that "all of this which by a mere accident came to light in the instance of a single corporation has to be interpreted as symptomatic of the general disease that is gnawing into the vitals of the body politic and the body financial." He added:

"When, in a quiet, clandestine way, the agent of a campaign committee visits a corporation to secure a contribution, he is in spirit doing what the police captain does when he puts his hand behind his back and stands with an open palm till the palm has been filled with the voluntary donation bestowed by the keeper of a low resort in 'Heaven street'."

Regarding Legislatures and insurance companies, Dr. Parkhurst said that "both are tarred with the same stick, one levies blackmail and the other pays it." The preacher continued:

"Some people steal more than others, not because they are worse stealers, but because they have more chances to steal. I do not know how many of us could afford to run the risk of being president of an insurance company or the son, nephew, cousin or brother-in-law of the president. I do not know whether the way some people deal in stocks is gambling, but if it is, call it gambling. Coddling infamy makes it respectable and pretty soon vice becomes simply virtue, got out in a gilded and limp-backed edition."

"The wicked gutter people down town gamble coarsely. Good avenue people up town gamble refinedly, and then nobody knows what gambling is or whether it is vice or virtue. Wicked people, very wicked people, practice licentiousness in the 'Tenderloin,' while others, men and women who would not be seen in the 'Tenderloin,' summon divorce courts and other appliances to their relief and operate what is in God's sight a 'Tenderloin' of their own, without forfeiting the friendship and confidence of churchy people in our 'best society.'"

"It was ten years ago that a friend of mine, employed in an insurance office in this city and in a position that enabled him to get on to a system of finance that was already in vogue there, placed in my hands a large amount of material which he wished might be used as the starting point of an investigation, but placed as we were, it was too much like trying to plant a dynamite bomb under the throne of Satan to undertake to combat in the courts an institution that has so much pocket money that it can deal out whole scoopsful of gold without calling for an accounting, that can put a million and a half into salaries and lawyers and lay out \$72,861 in a year on wine and terrapin."

ST. PETERSBURG, October 16.—The printers have struck, and no newspapers will appear tomorrow.

INSURANCE PRESIDENT RAILROAD

SAN FRANCISCO, October 16.—Julius Kruttschnitt arrived from Chicago last night and is at the Palace Hotel. He came to meet President Hartman of the Southern Pacific, who is due here from the Orient on October 23 on the steamship Siberia.

Kruttschnitt announced last night that the Hartman lines are all to be improved in every way. He said he had recently placed large orders for rails and for rolling stock. In this list is included 100,000 tons of ninety-pound rails. Orders have been placed also for 140 locomotives, 6,000 freight cars, 120 passenger coaches and 72 diners. All of these are to be of the most improved style.

For the coast trade between New York and New Orleans and New York and Galveston the company has ordered two 10,000-ton steamers, and for the line running between New Orleans and Savannah a 10,000-ton steamer with turbine engines is being built. Nineteen steamers are already in operation on the Atlantic Coast.

In reference to improvements on the lines on this coast, Kruttschnitt said that the block signal system was being put in as rapidly as possible. The system is now complete between here and Sacramento, and within two years it will be complete between here and Omaha, he said.

The narrow gauge line, he said, would ultimately be turned into a broad gauge line.

When asked about the Carquinez bridge, Kruttschnitt replied that he had positively nothing to say. He would not deny, however, that the question would come up for discussion when Hartman arrived here. That it will be largely discussed there can be no question.

Within the last ten days officials high in the Southern Pacific have been in Martinez investigating the tide land on the water front near that point. Last week a gang of surveyors of the Southern Pacific was in Benicia and it is reported that it made two surveys for a bridge to be constructed from points that would be most advantageous for the railroad company.

The survey starts at Army Point, and ends at a place below Grangers' wharf. The second runs from the hills back of Benicia, through the burial grounds of the Catholic fathers, near the Government arsenal, to a point in the hills just below Nevada docks. If this latter survey should be decided upon, it will mean the cutting out of Benicia and Port Costa, because the grade on the Benicia side of the bridge will not strike the main track until Crockett is reached, which is about two and a half miles from the Nevada docks.

The bridge, whenever it is built, will have to be a pier structure, at least sixty feet above the surface at high water, according to the statement given out by Secretary of War Taft.

INDEMNITY SAVINGS AND LOAN SOCIETY IS WRECKED. WELL KNOWN HAWAIIAN LAWYER PASSES AWAY IN WASHINGTON.

CLEVELAND, Ohio, October 15.—The Indemnity Savings and Loan Company, a banking house in Superior street, failed to open its doors for business today. The following notice was posted at the entrance of the bank:

"This company has made an assignment for the benefit of its creditors to H. R. Sanborn, who will make a financial statement as soon as inventory can be made."

The Indemnity Savings and Loan Company is the concern against which Attorney General Ellis began quo warranto proceedings in his Circuit Court Saturday last with a view to preventing the company from conducting business in this city. The Attorney General charged that the company had violated the State banking laws. H. R. Sanborn is president of the company.

Officers of the institution declare that it is absolutely solvent and the depositors can readily be paid in full. They also state that the Attorney General's action was without cause. The bank's last statement, issued in June, shows assets and liabilities of \$1,392,681. The deposits were then \$638,667.

The bank resisted the attempts to take away its charter and today filed a motion in the Circuit Court to quash the summons of Attorney General Ellis.

WASHINGTON, October 15.—William N. Armstrong, who was Attorney General of the Sandwich Islands under the reign of King Kalakaua, during the administration of President Grant, died yesterday at Carle Hospital in this city.

He had been ill about three months with a disease of the liver. After Mr. Armstrong's service under King Kalakaua he published a newspaper in the islands for a few years, and then returned to the United States, buying an estate at Hampton, Va., upon which he lived except the time he spent in traveling, which was his principal occupation.

FISHERMEN WANT AN UNDERSTANDING

GLOUCESTER, Mass., Oct. 15.—As a result of the policy recently adopted by the Newfoundland Government to restrict American fishing rights on the coast of Newfoundland, Congressman Augustus P. Gardner and Benjamin A. Smith, the latter one of the largest vessel owners in the city, left for Washington to discuss the situation with Secretary of State Root. Originally it was decided that the Collector of the Port, William H. Jordan, and a committee from the Board of Trade should accompany Congressman Gardner and Smith, but this plan was abandoned, inasmuch as it was felt that Gardner and Smith were fully qualified to deal with the situation.

The object of the trip to Washington is to obtain from the head of the State Department an interpretation of the treaty of 1819 by which American fishermen were guaranteed certain fishing rights on the Newfoundland coast. A similar trip to Washington was made last spring, but thus far no interpretation of the treaty has been made by the Department of State.

At the conference, Congressman Gardner and Smith will ask Secretary Root for an immediate interpretation. The vessel owners of this port say they are prepared to make a test case of the matter if any Gloucester vessels are interfered with by the cruiser Florida.

Newfoundland Government claims Newfoundland fishermen are shipped at Gloucester and in order that this cause of complaint may be eliminated the schooner Dauntless, Captain Charles T. Young, will sail from this port tomorrow with a crew of twenty-four men, all of whom belong to Newfoundland. Captain Young believes that he cannot be interfered with by the Newfoundland authorities and he is planning to sell his catch of herring to other Gloucester fishermen who will bring it to this port.

WORK OF IMPROVEMENT BY THE SUPERVISORS

District Attorney Decides That Recorder Can Collect No Fees For Registering Deaths.

At the meeting of the Board of Supervisors this morning, all the members were present save Supervisor Horner.

REQUISITIONS.

Requisitions of the County Auditor and the District Attorney for supplies were allowed.

SALOON LICENSES.

Saloon licenses were granted to M. R. Silvera, Warm Springs; J. Kiblet, Mt. Eden, and William W. Hopcraft, Fruitvale.

A PROTEST.

A protest against the granting of a saloon license to A. E. M. Prevaille, at the corner of Old County Road and Redwood Road was filed. It bore the signatures of A. M. Brewer, H. C. Townsend, Samuel Parker, Ernest Lamp, A. M. Werum, W. E. Faing and J. W. Elrod. The matter was continued for one week.

INFIRMARY.

Superintendent Clark of the County Infirmary reported that during September 73 inmates were admitted to the County Infirmary, 58 had been discharged, 12 had died and one had been born, leaving 231 on the roll. Filed.

NO FEES FOR DEATHS.

District Attorney Allen, through Assistant District Attorney Hynes, rendered a decision to the effect that the County Recorder cannot collect fees for the registering of deaths, as follows:

"In reply to your request for an opinion as to whether or not the County Recorder, as local registrar, under the Act of March 18, 1905, entitled 'An Act for the registration of deaths,' etc., should have his claim in the sum of \$9.25 allowed by the Board of Supervisors, I beg leave to report as follows:

"While the Act above referred to, in Section 14 thereof, provides for compensation for the local registrar, it further provides that said compensation shall be paid out of the funds of each registration district. The Act, however, makes no provision for the establishment of any registration fund."

"Under the decision of the Supreme Court in Kern County vs. Fay (131 Cal. 547) and San Diego County vs. Schwartz (145 Cal. 49), it is my opinion that the payment of the claim as presented by the County Recorder to the Board of Supervisors would be illegal in this, that under Section 9, Article XI of the Constitution, such payment would be increasing the compensation of the County Recorder."

The communication was filed.

COUNTY REFUSES TO GIVE AID FOR SEWER

No Assistance to City to Drain Storm-Water of the Piedmont Hills.

The county will give no assistance to the city in the building of a sewer on Pleasant Valley avenue and Lake Shore avenue, which was requested by the Finance Committee of the Oakland City Council.

No definite action was taken on the matter at this morning's meeting of the Board, save to refer the communication of the City Clerk, bearing on the subject, to the Committee of the Whole.

The action of that committee, however, was foreshadowed by the opposition to the project of Supervisor Rowe, whose Supervisorial district adjoins the section which it is proposed to sewer.

When the communication of the City Clerk had been read, Chairman Mitchell asked Supervisor Rowe what he would like to do in the premises and he replied, in effect, that he did not think the county ought to do any more for the city on that score. "The city had done nothing in the premises, and yet when they wanted something done, they asked the county to help. He was against the project, he declared."

Supervisor Mitchell intimated that Supervisor Rowe's opposition would be fatal to the scheme.

The communication of the City Clerk, which was read and filed, is as follows:

"The Council of the City of Oakland has before it a petition from property owners asking that a storm sewer be constructed in Pleasant Valley avenue and Lake Shore avenue, from the northern boundary of the City of Oakland to Lake Merritt."

"This sewer, if constructed, would be quite expensive, and the cost of the same would have to be assessed on a district to be fixed by the Council."

"The matter was under consideration at a meeting of the Street Committee of the Council of the City of Oakland, held October 12, 1905, and in view of the fact that the water to be taken off by said storm sewer comes from the Piedmont District, which lies without the city limits, the committee were of the opinion that the county should bear part of the expense of said storm sewer, and I was directed to ask your honorable body to arrange to bear such portion of the expense as in your judgment may seem proper. The committee will meet again on October 26, 1905, and I ask that you kindly reply to the committee by that time."

SOME DOG TALES.

(From the Baltimore American.)

"I have an unusually intelligent dog," said the man who likes to spin yarns when with a party of friends. "He was taught to say his prayers, and if you'll believe me, that dog now says his 'Hail Mary's' whenever he sees a minister anywhere near him."

"I have a dog with even more intelligence than that," quietly returned a member of the party. "One day when he got out in the street some mischievous boys tied a tin can to his tail and if you'll believe me, that dog headed for the nearest saloon and backed right up to the bar."

"My cat is a Dough," said another.

"DM not use Sport's Flaw."

WELCOME WORDS TO WOMEN.

From the view point of the average man housework is very easy. The wife is right at home. She is her own mistress. She can sit down and rest any time. She can even go to bed for a nap if she feels like it. She can order her household affairs just to suit her own convenience. If she doesn't feel equal to doing work to-day, she can do it to-morrow. That's the beautiful theory of the average man.

Just suppose the Egyptian task-master, when they made the required daily tale of bricks, saw the uttermost of human strength, had said to the boiling slaves, "Don't hurry, take a rest every now and then—only don't forget that your tale of bricks must be all right at night or else there'll be trouble."

There's the fact. There are the day's duties to be got through, and the women who can rest may not. The woman who can't rest may not. "Now, I'll be my own mistress," find herself a slave to household cares and duties.

And oh! how much that woman needs rest sometimes. She brushes and scrubs, and rolls pastry, her temples throbbing, her back aching, her nerves quivering under the stress of pain. What she would give if she could just creep upstairs and throw herself on the bed in a darkened room and rest.

Best would temporarily relieve the strain, doubtless, but it would be the same story over again to-morrow. The real need of weak, nervous women is strength, and that need is fully met and satisfied by Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. It removes the causes of women's weakness, tranquilizes and invigorates the system, encourages the appetite and induces restful sleep. Dr. Pierce's Favorite Prescription is a positive cure for the most complicated and obstinate cases of leucorrhoea, excessive flowing, painful menstruation, unnatural suppressions and irregularities, prolapsus or falling of the womb, weak back, "female weakness," anæmia, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness of the ovaries, accompanied with "internal heat."

"I am pleased to add my testimony in behalf of Dr. Pierce's Favorite Prescription," writes Miss Earline Agard, Chapin, Patriotic Daughters of America, of 413½ Michigan Avenue, Lansing, Mich. "I cannot find language to express my gratitude and joy over the fact that I am well once more. Wearing my corsets too tight seemed to have brought on an extra abdominal pressure, weakening the ligaments and pushing the internal organs down. What to do I knew not, as no medicines I had seemed to help me.

"I had heard of Dr. Pierce's Favorite Prescription and determined to try it, as a last resort. Before the first bottle was used I began to feel better, but could hardly believe that this was permanent, but my improvement went steadily on, and within four months I was like a new woman. Now I have no more pains, am well and strong, and am extremely grateful to you."

There is nothing to conceal about the make-up of "FAVORITE PRESCRIPTION." It is an absolutely pure medicine—

made of native roots—Nature's own restoratives, compounded after a formula concerning which there can be no question, by skilled chemists and by thoroughly scientific processes. Doctor Pierce is perfectly willing to let every one know that his "FAVORITE PRESCRIPTION" contains Blue Cohosh root, Lady's Slipper root, Unicorn root, Black Cohosh root and Golden Seal root. Every doctor knows that such a prescription is beneficial in the disease of women and when properly compounded is certain to effect a cure in nearly all cases when given a fair trial. Every bottle of the "FAVORITE PRESCRIPTION" which leaves Dr. Pierce's immense laboratories in Buffalo, N. Y., has plainly printed upon its wrapper all the ingredients of which it is composed. Thus Dr. Pierce proves to the world his own confidence in the remedy which for forty years has borne his name and which is known all through the United States and Canada, England, Australia, and in parts of South America, Africa and Asia, as a sovereign cure for those diseases which, unchecked, make our women old before their time.

It will be noticed that there is no alcohol in the "FAVORITE PRESCRIPTION." Dr. Pierce never believed in using alcohol in the preparation of his famous household remedies. For it he substitutes chemically pure glycerine, which has wonderful properties for extracting the medicinal principles of roots and preserving them at their full strength, without any deleterious effect whatever.

In favor of Dr. Pierce's medicines is the frank, confiding, open, honest statement of their full composition, giving every ingredient in plain English, without fear of successful criticism, and with confidence that the good sense of the afflicted will lead them to appreciate this honorable manner of confiding to them what they are taking into their stomachs when making use of these medicines.

Dr. Pierce feels that he can afford to take the afflicted into his full confidence and lay all the ingredients of his medicines freely before them because these ingredients are such as are endorsed and most strongly praised by scores of the most eminent medical writers of all the several schools of practice as cures for the diseases for which these medicines are recommended.

Your druggists sell the "FAVORITE PRESCRIPTION" and also that famous alternative, blood purifier and stomach tonic, the "GOLDEN MEDICAL DISCOVERY." Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as confidential and without charge for correspondence. Address him at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., of which he is chief consulting physician.

It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, two a mild cathartic. All dealers in medicines sell them.

Send 31 one-cent stamps to cover cost of mailing and get a copy of Dr. Pierce's Common Sense Medical Adviser, over 1000 pages. Address Dr. R. V. Pierce, Buffalo, N. Y.

TOOK HIM FOR THE ROBBER

Passenger on the Way to Boise is Held Up Several Times.

BOISE, Idaho, October 15.—A. Burch, the well-known Spokane mining man, formerly manager of the Bunker Hill mine, arrived here last evening after a somewhat remarkable chain of experiences on the way from San Francisco to this place.

Several attempts were made to arrest him on the supposition that he was the man who at Berkeley recently committed a murderous assault upon an Australian horseman and robbed him of \$5,000.

The trouble was occasioned by a clerk in the ticket office at San Francisco. He reported he had sold a ticket from San Francisco to Boise, to a man answering the description of the man wanted. On this information the officers instructed officers at various points along the road to arrest him. He was called out of his stateroom at Roseburg, but soon showed the officers that the description did not fit him, excepting that he wore a Van Dyke beard. As the train neared Portland he was again called out. This time it was Sheriff Ward of Multnomah, who knew him. Ward communicated with the Portland police not to interfere with him, but two plain clothes men got aboard as the train was entering the city and shadowed him. When he arrived in the hotel here a Boise officer stepped up with the same instructions to arrest.

SHOT BY MAN AND HIS SONS

Bullets Poured Into Body From Three Revolvers.

CHICAGO, October 15.—After he had been stabbed by Joseph Toscano, while engaged in a fight last night, Vito Foglio, fifty years of age, drew a revolver and fired at Toscano.

As he fell in the street, Foglio's two sons, Pietro, twenty years of age, and Anthony, fourteen years of age, who witnessed the fight, both drew revolvers and fired several shots at the body.

Toscano was dead when the police arrived.

Whether Foglio or his sons killed Toscano is puzzling the police.

Vito Foglio was arrested and taken to a hospital, where it was found he had suffered two large scalp wounds and two wounds in the face. The sons escaped.

The cause of the quarrel between the elder Foglio and Toscano is a mystery. Toscano lived in La Porte, Ind.

AN AUTO TURNS TURTLE

OCCUPANTS HAVE A NARROW ESCAPE FROM INSTANT DEATH.

YOUNGVILLE, October 15.—A serious automobile accident occurred at 11 o'clock yesterday morning on the county road in front of the Veterans' Home at this place.

William Wilson of Napa was driving the machine and with him were W. H. Lumsden and A. R. Morrow of Santa Rosa. As the party was leaving Napa the steering gear worked loose, but they did not stop. Just as they were pulling into Youngville the machine turned a complete somersault and turned upside down in a ditch.

While the occupants were all severely shaken up, the only serious injuries were sustained by W. H. Lumsden, who is a large, heavy man. He was thrown violently to the ground and was picked up unconscious, in which state he remained for half an hour.

George Gibbs of Youngville, who was passing in his automobile, witnessed the accident. He immediately conveyed Lumsden and his companions to the hospital at the Veterans' Home, where the unconscious man was attended to by Dr. F. A. McMahon. Lumsden was found to have fractured his right thumb, both wrists and injured his right knee cap. He remained at the hospital until 3 o'clock when he was taken to the hotel, and started for his home at Santa Rosa.

The machine is lying in the ditch, a total wreck.

A TIME OF PAIN AND PERIL

Miss Emma Cole Says that Lydia E. Pinkham's Vegetable Compound has Saved Her Life and Made Her Well

How many lives of beautiful young girls have been sacrificed just as they were ripening into womanhood! How many irregularities or displacements have been developed at this important period, resulting in years of suffering!

Miss Emma Cole

Girls' modesty and oversensitiveness often puzzle their mothers and baffle physicians, because they withhold their confidence at this critical period.

A mother should come to her child's aid and remember that Lydia E. Pinkham's Vegetable Compound will at this time prepare the system for the coming change and start the menstrual period in a young girl's life without pain or irregularities.

Miss Emma Cole of Tullahoma, Tenn., writes:

"Dear Mrs. Pinkham:—

"I want to tell you that I am enjoying better health than I have for years, and I owe it all to Lydia E. Pinkham's Vegetable Compound."

"When fourteen years of age I suffered almost constant pain, and for two or three years I had soreness and pain in my side, headaches and was dazed and nervous, and doctors all failed to help me."

"Lydia E. Pinkham's Vegetable Compound was recommended, and after taking it my health began to improve rapidly, and I think I saved my life. I sincerely hope my experience will be a help to other girls who are passing from girlhood to womanhood, for I know your Compound will do as much for them."

If you know of any young girl who is sick and needs motherly advice ask her to write Mrs. Pinkham, Lynn, Mass., and she will receive free advice which will put her on the right road to strong, healthy and happy womanhood.

CLUBMAN DISROBES IN PUBLIC

Takes Off His Clothes and Rides Naked on Freight Train.

NEW YORK, October 15.—Temporarily bereft of his senses, following a severe mental strain, Dr. Arthur St. Clair Knudson, a well-known physician and clubman, disrobed in the New York Central freight yards in this city early yesterday morning and climbing upon a freight train rode as far as Yonkers before his plight was discovered by trainmen.

He suffered greatly from exposure but will recover.

When he received medical attention, Dr. Knudson said:

"I started away from the club Saturday night. I was afraid—I don't know why. I walked up the avenue and then I ran. It was not fast enough so I took a cab to Hightbridge. I got out of the cab and started to run again."

"My clothes were too heavy, so I took them off. I remember climbing upon a freight train. I think I don't remember anything more."

Dr. Knudson is a native of Honolulu, member of an old pioneer family there, and a world traveler. He was graduated from Harvard in 1896 and took his medical degree in 1900.

He has been traveling over the world since his graduation.

CORPORATIONS DID NOT PAY

GOVERNOR WILL HAVE NAMES OF DELINQUENTS PUBLISHED.

SACRAMENTO, October 15.—The issuance of Governor Pardee's proclamation announcing the names of the corporations, domestic and foreign, who have not yet complied with the provisions of the corporation license law passed by the last Legislature, has revived interest in the requirements imposed by the law.

It was recommended by Secretary of State Curry, who found it necessary for the expedition of the business of his office, to sort out and abandon the articles of incorporation of concerns that are dead and forgotten, but that still cumber the archives, and impose double duties upon a portion of his office force.

Under the law each domestic corporation is taxed \$10 a year for a license entitling it to do business under its charter, and a like sum is exacted from foreign corporations for permission to do business in the State. In case the provisions of the law are not complied with, the domestic concerns forfeit their charters and the foreign concerns forfeit the right to continue to do business in the State.

If the tax is not paid by the last of August it becomes delinquent and a penalty of \$5 is added. This must be paid within sixty days after the issuance by the Governor of a proclamation announcing the names of the concerns that have not complied with the provisions of the law. The proclamation was issued Saturday, and forfeitures will be due on December 13th, unless delinquents shall have settled with the State meantime.

There are in the office of the Secretary of State articles of incorporation of 43,000 concerns. A notice was sent to each of them, with a copy of the law included, that the license tax was due. About 20,000 of these were returned marked "not delivered," indicating that the corporations had died; 8,669 corporations have paid the license tax of \$10, and nearly 1,000 have paid the tax and the \$5 penalty.

A rough estimate places the number of live corporations in the State at from 16,000 to 20,000, and those that have not yet responded are delinquent. Unless they pay up by December 13th, they will forfeit their right to continue business in the State as corporations.

Under the law the publication of the Governor's proclamation in two newspapers was made mandatory, and Governor Pardee named as such newspapers the Sacramento Union and the Oakland Enquirer. The publication in the Union and the Enquirer will be made today.

Among the delinquents are 250 San Francisco corporations, 30 at Berkeley, 90 at Fresno, 200 at Los Angeles, 100 in Oakland, 90 in San Diego, 80 in San Jose, about 200 domestic railway companies and 40 banks, including Anaheim, Berkeley Commerce of San Francisco, Fresno Nevada county, Pacific Grove, Red Bluff, Stockton, San Bernardino, San Diego, Santa Clara county, Sausalito, Vallejo and South San Francisco.

MINSTREL SHOW A SUCCESS

BOYS OF EAST OAKLAND ENTERTAIN FRIENDS WITH CLEVER ACTS.

There were nearly 200 present. Friday evening, at the benefit entertainment of the King's Sons' League of East Oakland. The organization gave a minstrel show in Washington Hall on East Twelfth street to raise money for benevolent purposes. The proceeds will be used to fit up a club or room for the young men of East Oakland there being at present no such place for them to congregate except a home.

The performance Friday night even exceeded the expectations of the members. The boys had been carefully drilled and sang the choruses in a perfect manner. The four end men, Walter DeBorbon, Edward Stalder, Rod and Milton Henderson, knew their line work and kept the audience amused continuously. Each sang a solo during the evening and all were excellent, especially the "Bones" and "Bones" who sang "Down by the Watermelon Vine." The opening chorus was "The Empire State Express," and the show concluded with "In the Shad. of the Old Apple Tree."

The second part of the program lasted another hour and included vocal and instrumental music and vaudeville stunts. During the intermission piano solos were played by Lyman Sargeant and Miss Louise Campbell, the accompanist.

The Henderson brothers appeared together in a number entitled "Tragedy by Jarle & Vames." Their act included many jokes and songs and was the best number on the program.

Selections by the King's Sons' League quartet concluded the performance. They sang "The Old Oaken Bucket" with variations, "Swanee River" and "Home, Sweet Home."

The members of the quartet were Walter DeBorbon, Earl McCord, Charles Goodman and Edward Stalder.

TURKEY CASE WAS DISMISSED

WALNUT CREEK, October 15.—William Garand of 1155 Seventh street, Oakland, charged with larceny of two turkeys at the Buckley ranch was on trial in William Hough's court Saturday. District Attorney stated that the case had been satisfactorily settled with the plaintiff, and that there was no desire to prosecute the matter on his part. Accordingly the case was dismissed.

UNION MATTERS OF INTEREST

JUDSON CARPENTER TOOLS ARE AUCTIONED OFF—PURE FOOD CAMPAIGN.

The Judson carpenter tools were auctioned off piece by piece at the California Hotel union labor headquarters Saturday evening and brought \$140. This makes about \$94 received from members of unions for the kit.

Local No. 1657, Carpenters' Union, indicated that its members Friday evening. This union is sitting in a goodly number of young men and is gaining in membership fast.

PURE FOOD COMMITTEE.

The pure food committee of the General Federation of Women's Clubs is preparing to send out communications to all the unions in the United States, including their organizations in the movement for pure and more honest food. It is statistically calculated that canned goods, spices, etc., are two-thirds adulterated, the adulteration being generally hurtful so that when a woman pays \$2 worth of goods it is only about 80 per cent pure, \$1.40 goes for adulteration. Cornelia Alden and Elizabeth Foster are the ladies leading the agitation.

MANY FINES.

In Troy, N. Y., where a strike of laundry employees has been on for some weeks now, the employees have had to pay to the firm \$150,000 in fines in the last ten years. Wages have not been increased in twenty years.

NO LOCAL HERE.

The thirty union employees of the Sibbest overall factory, on the Old County road, in Fruitvale, at the end of Twentieth street, all had been ordered to leave San Francisco, there being no Garment Workers' Union in Oakland. The factory has the label.

MRS. ARMES IS LAID IN GRAVE

The funeral of Mrs. Sarah W. Armes, widow of the late George W. Armes, a former pioneer resident of this city, and the mother of Professor William Dallan Armes of the University of California, was held at 3 o'clock yesterday afternoon from the family residence, 1115 West street.

The services were conducted by the Rev. E. B. Baker, pastor of the First Presbyterian Church, and the Rev. Charles R. Brown, pastor of the First Congregational Church.

The funeral was attended by many of the friends of the deceased, and the casket was hidden by the large number of floral pieces, sent in loving remembrance by those who had known Mrs. Armes during her long residence in Oakland. At the close of the services the remains were interred in Mountain View Cemetery.

ON THE LIST OF REAL CHARITIES

The Charities Indorsement Committee of this city, consisting of H. C. Cupwell, chairman, D. C. Brown and A. Jones, has decided to send application blanks to these institutions: West Oakland Home, the Associated Charities, Boys' Retreat, the Oakland New Century Club and the Beth-Adriel Rescue Home of San Jose. Each institution was indorsed for one year and commended to the good favor of the charity inquired.

The object of the committee is to differentiate between worthy and unworthy charitable institutions for the benefit of merchants and others who are called upon frequently to contribute.

The committee represents the Oakland Board of Trade, the Merchants' Exchange, the Associated Charities, and citizens generally.

The committee decided to assist in every way possible the indorsement plan of the San Francisco committee.

DAUGHTERS TO MEET

PROGRAM IS COMPLETE FOR THE SESSION IN OAKLAND.

The ninth annual State Convention of the California Branch of the International Order of the King's Daughters and Sons will be held at the First Presbyterian Church, Fourteenth and Franklin streets, Friday and Saturday, October 27th and 28th. Mrs. Margaret Bottomo, president of the Central Council, and Miss Georgie Libby, a member of the council and one of the "original ten," are to be in attendance at the convention. A feature of the convention is to be the reception to Mrs. Bottomo and Miss Libby, on the afternoon of October 26th, in the parlors of the Occidental Hotel, San Francisco. In the evening of that day Mrs. Bottomo is to deliver a lecture at the Howard-street Methodist Episcopal Church, San Francisco.

Mrs. Mathilda Brown, State secretary, residing at 568 Caledonia Avenue, Oakland, has requested that all circles in the State communicate with her immediately and mail to her a copy of the credentials for their delegates. The delegates desiring to be entertained during the convention are to communicate with Miss Simpson, 1119 Castro street, Oakland, as soon as possible. The program of the convention follows:

Friday morning—Devotional service, led by Mrs. Robinson of the Simpson Memorial Church, San Francisco; address of welcome, Rev. E. E. Baker of the First Presbyterian Church, Oakland; response, Mrs. J. G. Clark, San Francisco; introduction of Mrs. Margaret Bottomo, Rev. E. R. Dille, First M. E. Church, Oakland; convention called to order by the State secretary.

A Dogberry Literary Judgment.

Edgar Allan Poe, along with Oliver Wendell Holmes and George Bancroft, has been denied a place in the New York Hall of Fame, but James Russell Lowell and John Greenleaf Whittier are placed among the immortals of American literature. Neither Lowell nor Whittier possessed a quarter of the literary genius of Poe, who is hailed in Europe as the first of American poets and the greatest creative artist American literature has yet produced, Hawthorne not excepted. Bancroft ranks far above Lowell as a scholar, a statesman and a diplomat. His history is a valuable work of vast research; as a foreign minister of the Republic he was one of the most capable men this country has ever sent abroad; as Secretary of the Navy he was the virtual founder of the naval school at Annapolis. Both Whittier and Lowell achieved prominence and local popularity more through the part they took in the literary crusade against slavery rather than fame for literary genius of the first order—which neither of them possessed. Scores of mediocre verse-makers have struck as high a note as ever Lowell or Whittier reached, while there are flashes in Poe's writings far above any other American poet. But Poe drank and was improvident, and in some way managed to incur the displeasure—or jealousy—of the Concord Mutual Admiration Society, which for two generations has been industriously trying to make the odium of his vices stick to the products of his pen. Even his faults have been greatly exaggerated and his weaknesses magnified out of all reason. But, however much he may be under the ban of a narrow, self-righteous egotistical circle that has endeavored to make literary genius in the United States a local product of New England, he has nevertheless gained a place in the world's pantheon from which he cannot be dislodged. The edict of the New York jury is of no more force and effect with respect to an author's rightful place in literature than a resolution of a Tammany convention would be.

The "shake-up" Assemblyman Mitchelltree promised the public appears to have nothing better than a "shake down."

Rate Regulation in the Senate.

As the time for Congress to assemble approaches, the disposition of Republican Senators to line up on the rate regulation issue becomes more marked. Elkins of West Virginia has endorsed the views of Foraker and Dick of Ohio, which are known to coincide in this particular with the opinion of Aldrich of Rhode Island. Scott of West Virginia, Platt and Depew of New York, Penrose of Pennsylvania, Spooner of Wisconsin and Lodge of Massachusetts are also regarded as opposed to giving the Inter-State Commerce Commission the power to fix and regulate railroad freight rates. In a recent interview Senator Flint of California intimated that he does not favor the proposition. Mitchell of Oregon and Burton of Kansas cannot vote, but if they could they would certainly be against the President. Among Democrats, Clark of Montana, Gorman of Maryland, Martin of Virginia and Morgan of Alabama are regarded as certain to line up on alleged constitutional grounds, against Congress assuming the power to delegate to a commission the power to fix railroad rates. McEnery of Louisiana may be classed in the same category, and Daniel of Virginia is more likely to go with his colleague, Martin, than with the President. Thus it appears that the strongest of the leaders on both sides of the Senate will be found in opposition to the President when it comes to rate regulation. Nobody can tell what Bailey of Texas will do, while Allison of Iowa cannot be expected to take a decided stand either way, nor are the Senators from New Hampshire and Connecticut to be looked upon as energetic supporters of the President against the united strength of the railroads. However, the President may not be disposed to force an issue which promises to create a powerful Senatorial coalition, that can, if so minded, greatly embarrass him in carrying out his policy, in other directions.

Arizona's chances for separate Statehood appear to be improving. Several prominent members of Congress who heretofore favored admitting Arizona and New Mexico as one State have now announced themselves as ready to vote for the admission of the former separately. This is a straw indicating that both Territories will sooner or later be admitted as separate States. The trend of sentiment also favors the admission separately of Oklahoma. The great body of the inhabitants of that Territory object to being tied up with Indian Territory, which Beveridge of Indiana and certain other Republican leaders appear to be determined on. The likelihood, therefore, is that four new States will be added to the Union in the near future instead of two, which will leave Alaska as the only part of our continental possessions under Territorial rule.

Sir Henry Irving

The eulogies of Sir Henry Irving appear to be extravagant. He was a great stage artist, but not a great actor as Booth, Macready and Garrick were. He presented Henry Irving, not other characters, in many splendid roles, but he never possessed the versatility of genius which enables the really great actor to sink his own personality in the part he is playing. All his life he was a poseur—one without a peer—but his pictorial imagination and his unrivalled faculty for working out stage ensembles and giving dramatic emphasis to situations mechanically prepared inspired interest and gave him a commanding position among managers and stage artists. He played Becket not as Becket was, but as Irving would have been in Becket's place. Nevertheless, he gave an exhibition that was both magnificent and interesting. He was perhaps the best stage manager and dramatic organizer that ever lived. His industry and attention to detail were marvelous, but as an impersonator of character he was far behind scores of English and American actors. He occupied an unique position in the dramatic world; the stage owes him much for elevating it and giving dignity to the dramatic profession, but he does not stand in the first rank as a portrayer of character.

Governor Jeff Davis of Arkansas has declined to preside at the banquet to be given in honor of the President when he visits Little Rock, his excuse being that he will not sit at the same table with General Powell Clayton, former Senator from Arkansas and more recently Ambassador to Mexico. The President will be honored by the absence of Davis, who is far from being a creditable representative of the South and altogether a poor specimen of a State executive. General Clayton has not been a model in public life, but he is infinitely superior to Governor Jeff Davis.

It does not speak well for the student body of the State University that a theatrical manager has felt it necessary to appeal to President Wheeler to protect his business from riotous and lawless interference on the part of students. Perhaps the official constabulary of Berkeley are fully equal to the emergency, but it is none the less the duty of the University authorities to suppress such disgraceful disturbances as the one of last week, when a gang of students "rushed" the doors of a theatre and broke up the performance. If the civil authorities would send a few of these rioters to jail for thirty days instead of inflicting nominal fines or referring the misdemean-

ants to President Wheeler for punishment, the student ardor for ruffianly pranks would speedily cool. But whether the town authorities are unable or unwilling to make salutary examples of student rioters, it is the duty of the faculty to weed the University of the "rough house" class that is bringing it into discredit throughout the State.

If the people will only take Mr. Rockefeller's advice and look to higher things than money-making, thriftier persons who keep their eyes centered nearer the ground can pick up the dollars with greater ease and less observation. Mr. Rockefeller's six hundred millions is not a testimonial to the way he has kept his eye on higher things.

APPROVES OF TRIBUNE EDITORIAL.

Oakland, California, Oct. 13, 1905.
Editor TRIBUNE: Dear Sir—Ever since reading your editorial of Tuesday evening, "High School Methods Criticized," I have been intending to write you and thank you for it. It is right to the point, and deals with one of the most serious abuses in the very important department of public education. Education is for man, not man for education. Our High Schools belong to the people, not to the scholastics. Cordially yours,

THE VAGABOND.

I cannot bide the sober town,
With decent villa, church and square;
Nor madam with her stylish gown,
Nor master with his glossy hair.
I cannot bide the sober town,
Nor madam, with her stylish gown.

But I would over vale and hill,
And draw the breath of distance free,
And roam from opal dawn until
The twilight creeps across the lea.
Oh! I would over vale and hill,
And sleep in barn or ruined mill.

For I a vagabond was born,
I love to wander far and wide,
And seek out places most forlorn,
And evil hills where men have died.
For I a vagabond was born,
And love the twilight and the morn.

I love all wild and woeful lands
Where I may talk with woods and streams,
Or walk on desolate sea sands,
And tell the ocean all my dreams.
I love all wild and woeful lands,
And Ocean's dolorous wet sands.

I love to watch the sunset die,
And hear the large night's solemn words,
And on the moonlit heather lie,
And wake to greet the morning birds.
I love to watch the sunset die,
And on the moonlit heather lie.

For oh! I hate the sober town,
I hate the villa, church and square,
I long to knock the houses down,
And ruffe master's glossy hair.
For oh! I hate the sober town,
And madam's modish silken gown.

But, ah! the country air is pure,
And ah! the country lads are true,
And loving comrades they'll endure,
They'll stand by me, they'll stand by you.
But, ah! the country air is pure,
And country friendships long endure.

ITALY'S INDUSTRIAL PROGRESS.

The Great Improvement and How Emigration Helped It On.
Of European countries Italy has, comparatively, made the greatest progress in the last decade. Ten years ago Italian securities were considered poor second class; they were mostly in the hands of foreign capitalists. This condition has been reversed. Italian finances are now in a healthy state, and most of the bonds of the government, of the railroads, and the municipalities, etc., held abroad have been bought back or redeemed. The bulk of these securities is now held by home capitalists and the interest payments to foreign creditors are now comparatively small. Formerly the paper currency of Italy was at a large discount, but now it is at a premium and the improvement in her foreign trade have wiped out the discount.

The savings of the Italian people show large gains; manufacturing industries have increased amazingly, although the country does not possess iron or coal. The abundant water power is beginning to be used for industrial purposes, largely for the creation of electric energy. Within the last decade the exportation of manufactured goods has advanced from \$1,400,000 to \$80,400,000. In former times Italy imported nearly all cotton goods; now her cotton factories not only supply the home demand but export heavily to the Levantine countries and to South America. By putting a heavy duty on imported sugar, sugar-beet cultivation has become an important domestic branch of agriculture, and home production now supplies the home demand. Machine and shipbuilding and the manufacture of cars and of automobiles have made great progress.

Another cause of the betterment of the finances and the increase of Italy is to be found in the accumulation of money and property by the Italian emigrants in the United States, Brazil, Argentina, and other countries. These emigrants are very frugal and industrious, almost as much as the Chinese coolies. Every year a large part of their earnings is sent home to relatives and for investment in home securities. One-half of the Italian emigrants return to their native country after they have saved a few dollars, and they are constantly increasing, especially to Eastern countries, where it is making inroads on the long-established trade of the manufacturers of Italy. Some economists see in the Italians the Sponges of Europe. They are constantly gaining in the trade with Turkey and other countries of the Levant, and they have strong aspirations to get into the markets of Africa, which are to supply them with raw materials, and will become large and profitable markets for Italian manufacturers. In aid of this aim the Italian legislature has reduced the \$20,000,000 limit on the increase of the navy, which by 1899 will have in service 15 modern built line of battleship, 13 ironclads of older style, 14 protected cruisers, eight smaller, old-type cruisers, 23 torpedo destroyers, 43 sailing vessels, a small torpedo boat of the first and second class, and 12 submarine boats.—From a Report by United States Consul-General Guenther.

Southern Hospitality.
Some years ago one B., of Keokuk, Iowa, made a wagon trip through the adjacent southern States. On his return he recounted to his friends his impressions of his journey.

"Now, for instance," said he, "I went to a farmer to ask him the way to the nearest town. It was about 11:30 a. m. and I wanted to push on, but these here southern folks is so hospitable he would not let me. He says, 'Light, stranger, an' come to dinner.' So I lit."

HERE'S SOME STRAIGHT NEW THEORIES ABOUT KISSING

EVENTS IN LOCAL SOCIETY

FOUR WEDDINGS FOR WEDNESDAY

WHITE-FAITOUTE NUPTIALS AT CHURCH OF THE ADVENT—OTHER WEDDINGS.

Wednesday is the favored day of brides this week, and four weddings are on the social calendar for that interesting day. Miss Florence White will become the bride of M. W. Faitoute of New York in the Church of the Advent, East Oakland. White is the color scheme chosen for the wedding.

Miss Marlon Goodfellow will attend the bride as maid of honor, and the quartet of bridesmaids will include Miss Claire Chabot, Miss Florence Hush, Miss McDermott and Miss Lucetta Burnham. Rev. Carson Shaw will officiate.

Several hundred cards have been sent out for the church ceremony and reception to follow at the bride's home on Seventeenth street.

At half after three in the afternoon the marriage will be solemnized between Miss Frances Allen and Joseph Bryant Grimwood in Trinity Church, with a reception to follow at the home of the bride on Pacific Avenue.

The bride's attendants will be Miss Harriet Allen, Miss Mattie Livermore, Miss Natalie Coffin and Miss Emma Grimwood.

At the home of Dr. and Mrs. L. L. Dorr on Hyde street Miss Elsie Dorr will pledge her vows to Lieutenant Claude Ernest Brigham, U. S. A., at 8 o'clock in the evening.

Miss Jessie Dorr will be her sister's only attendant and none but relatives will witness the ceremony.

At noon on the same day Miss Elizabeth Callender, daughter of Dr. and Mrs. John Anton Callender, will become the bride of Joseph Crosby Deedy. An informal breakfast will follow the church ceremony.

CLUB AFFAIRS.

Ebell announces a lecture for Wednesday of this week to take place at 3 o'clock in the afternoon at the club rooms. Professor Henry Morse Stephens is the lecturer, and his subject, "Some Things Club Women May Do in Educational Work."

A large attendance is expected. At the Oakland Club on Wednesday afternoon at half past two Mrs. M. Marouse will speak on "Woman's Legal Status," a subject of general interest to women.

The "social afternoon" at the Adelphean Club will be held tomorrow and will be the first of a series of informal afternoons to bring the members together for closer social intercourse. There will be card playing and refreshments will be served, while the work of the club will be discussed.

CHILDREN'S PARTY.

Miss Loline Behrend was the recipient of a pleasant surprise party last Saturday on the occasion of her seventh birthday.

Among the guests who enjoyed the affair were Loline Behrend, Grace Coughlin Hazel Kyll, George Behrend, Alexander Cavanaugh, Myrtle Smith, Amelia Kyll, Tanta Hansine Nielsen, Mrs. Bentler, Josie Sullivan, Marguerite Nielsen, Dan Sullivan, Della McDonough, Myrtle McCloskey, George Sarg, Lydia Anderson, Monica McDonough, Elsie Anderson, Cecelia McDonough, Marcella Sarg, Helen McCloskey, Doris Sullivan, Lillie Sanford, Mrs. F. Henriksen, George Peters, Rosie Peters, Mary Behrend, Hannah Coughlin.

A WEDDING.

Mrs. Kemp G. Cooper of Denver has announced the marriage of her daughter Clara Louise, to Edwin Stiltz Rust of Berkeley. The wedding took place September 27 in this city. Rev. Thomas McSweeney, pastor of St. Francis de Sales Church, officiating.

The bride is the daughter of the late Kemp G. Cooper, owner and manager of the Denver Republican. She was a student at the University of California.

Mr. Rust is a son of E. C. Rust, a well-known newspaper man. He has been a student of mining engineering at the State University, and will take his bride to Mexico, where he is in the employ of a mining company.

LARGE RECEPTION.

Mrs. B. T. Henshaw has sent out cards for an elaborate reception on the afternoon of Wednesday, October 25, at her attractive home on Moss Avenue.

COTILLION CLUB.

The first at home of the Berkeley Cotillion Club took place Friday evening, October 13, at their new assembly hall. The hall was decorated with Japanese lanterns and ribbons of red, white and blue.

Dancing and games were the principal enjoyment of the evening and sev-

eral vocal selections were rendered by members of the Concordia and Cotillion Clubs.

On account of the great demand for invitations the club intends to secure a larger hall and purpose giving a series of novelty parties to be invitational.

Much credit for the success of the evening was due the members and officers: President, Miss Elena C. Moore; secretary, Miss Mabel Rose; and treasurer Roy Hurlie.

The patronesses of the evening were Mrs. L. Brodt and Miss Delphine Sistrina.

WEDDING DATE.

The marriage of Miss Edith Downing and Dr. Edgar will take place November 21, and will doubtless be one of the prettiest affairs of the winter.

This pretty bride will have a coterie of attendants, including Miss Helena Robson, Miss Lucretia Burnham, Miss Ruth Kales and Miss Kathleen Finnesan.

CLUB MEETING.

The Country Club will meet November 7 at the home of Mrs. F. B. Granger in Alvarado.

A pleasant and interesting meeting of the club was held at the home of Mrs. Evans of Niles, Tuesday, October 3. Several papers on the life of Shakespeare were presented by different members of the club, all meriting the attention they received. The story of the play of "Hamlet" was well told by Mrs. Caleb Haley. This play is to be taken up for study by the club. Miss Clara Jackson played two instrumental solos.

Mrs. Abbie Fair and Mrs. Eula Wright were elected to membership in the club and three applications for membership were received.

A WEEK'S OUTING.

Mr. and Mrs. Charles H. Butler departed Saturday afternoon for a week's outing in the Santa Clara Valley.

Mr. Butler is somewhat fagged by close attention to business and personally superintending the finishing touches of the street sweeper he has lately invented, and proposes to take a short rest.

DATES OF INTEREST.

The reception tomorrow at the California Club for Governor and Mrs. George Pardee will attract a large number of society people from this side of the bay. The affair promises to be one of the elaborate winter events.

Another date of interest across the bay is the card party which Mrs. Frank Deering has announced for tomorrow. This is the second of a series she is planning to give at her home.

PERSONALS.

Mrs. John L. Howard Jr. and her sister, Miss Mollie Norcross, have returned to their homes after a month's outing in the mountains.

Dr. and Mrs. J. Warren Stirt of Berkeley entertained several prominent

Daughters of the Confederacy during their visit here.

The George D. Toys and Miss Mabel Toy will remain for a month in Alameda as the guests of Mr. and Mrs. Harvey Toy.

SOCIAL DANCE.

The members of Ivy Lodge, No. 4, D. of H., will hold a dancing party to night at Fraternal Hall, 1156 Washington street.

Elaborate preparations have been made for an evening of dancing. The public are cordially invited to attend. Dancing, 8:30 p. m.

YELLAND-PHELPS.

The marriage of Miss Winifred Yelland and Roger Sherman Phelps of San Francisco took place Saturday evening at the home of the bride in East Oakland. The Rev. Charles R. Brown officiated.

The bride wore a pretty gown of white point d'esprit over messaline, and carried a shower bouquet of lilies of the valley. She wore a tulle veil caught with orange blossoms. Miss Elaine Goodridge of Santa Barbara was the maid of honor and wore a gown of pink messaline satin. She carried Cecil Brunner roses. The two bridesmaids, dressed in pale blue silk, were Miss Gertrude Snow and Miss Bertha Clark.

William Holling of San Francisco attended the groom.

Mr. and Mrs. Phelps will make their home at 1811, where the groom has recently been appointed principal of the high school.

PURSUED ACROSS SEA 3 TIMES BY A BILL, SHE FIGHTS IT

NEW YORK, Oct. 16.—Process servers have finally succeeded in serving a summons in a suit for payment of a dressmaker's bill upon Mrs. A. A. Roberts, a wealthy widow living at No. 125 West Fifty-eighth street, after a campaign that has lasted for two years and has extended from Paris to this city, to Newport, to London, to Paris and back to this city again.

An unusual feature of the case, which is to be tried in the Tenth District Court, is that Mrs. Roberts claims that she has paid her bill of 1,000 francs due the Callot Sisters, modistes, of Paris, and that the remainder of the bill standing against her name is owed by another Mrs. Roberts, who was stopping at the Hotel Riche at the time she ordered her gowns.

Attorney Samuel I. Ferguson, of No. 30 Broad street, who is attorney for the Callot Sisters, said yesterday that in all his experience he had never had such a time collecting a bill as in this case.

"Thirty-five summons have been issued," said Mr. Ferguson, "and it was finally necessary to secure a substitute of service and nail the summons on the outer door of Mrs. Roberts' apartment at No. 125 West Fifty-eighth street."

"The bill now only amounts to about \$300. Already more than that has been eaten up in services, the hiring of detectives and process servers, and in lawyers' fees."

C. C. Roberts, a member of the New York Athletic Club, the son of Mrs. Roberts, declined to discuss the case last night, except to say that his

This Man Says That There Are Just 8 Kinds --Definitions Are Given by Some Well-Known Persons.

True lovers the world over will hail with chirps and smacks of delight the new discovery of Alfred Fowler, B. A. He announces in a book now hot from the press that there are eight classes of kisses.

Draw near, loving hearts, give your attention, and ye shall be edified. Here are Mr. Fowler's eight divisions of kisses:

The kiss of passion.
The parental and filial kiss.
The kiss of affection (always between women).

The devotional kiss.
The fraternal kiss.
The kiss of curiosity.
The kiss of treachery.

The fleshy, evil kiss.
All of which is free to maintain.
Mr. Fowler is a Chicagoan, who has studied so much about love and kisses that he is worthy of more than a mere B. A. degree. He is a veritable Magister Artium de Amore Osculisque. If any reader of these lines has been too hasty in his doings, too anxious to get-rich-quick, too pre-occupied with work or play to pay proper heed to the gentle art of kissing, let him hasten to Mr. Fowler and study the subject in all its branches. The book is called "Curiosities of Kissing," and is published by Reilly & Britton, Chicago.

The author is modestly personified. In his foreword he declares:

"The Song of Kissing is the song of love, love immortal and young in the endless succession of lovers. Its music is the melody of the heart and the poetry of the soul. Its rapture is the charm of youth, the joy of manhood and the beatitude of old age."

"It is especially for all such, who have heartfelt longings for 'some individual solace dear,' that this little book is sent forth on its mission of helpfulness and suggestion in the divine art of kissing, to the attaining of the much-sought goal—matrimony. For, truly, to marry aright is to solve the riddle of life."

Mr. Fowler does not rely altogether upon his own judgment of kisses. He quotes the definitions of a score of authors. The best of these are:

"Kisses are the messengers of love."—Optiz.

"Kisses! They are the blossoms of love—Ninon de L'Enclos.

"Kisses are love's great gallery."—Gresham.

"A kiss is not the feast: it is an invitation to the feast.—Randolph.

"A kiss is the door that opens the citadel of the heart.—De Levis.

"What is a kiss? A receipt given by a lady on your paying your addresses."—Wit and Humor.

"A kiss is at once the token of boldness, confidence and affection.—Neplus.

"A kiss is an alms which enriches him who receives without impoverishing her who gives.—Ninon de L'Enclos.

"When two hearts are charged with love's electricity, a kiss is the burning contact, the wild, leaping flame of love's enthusiasm."—G. D. Prentice.

From the folk-lore of all the world Mr. Fowler has gathered these gems:

"If a dark-complexioned man, who is in love with you, kisses you, expect a proposal.

"There are no less than eight signs of kissing. Salutation, valediction, reconciliation, subjection, approbation, adoration, treachery and love.

"A kiss on the forehead signifies respect and admiration for intellect.

"A kiss on the cheek signifies admir-

ation for beauty.

"A kiss on the nose shows awkwardness.

"A kiss on the chin shows an appreciation of something.

"A kiss on the hand shows timidity and homage.

"A kiss on the lips signifies love.

"A short kiss, carelessness.

"A long kiss, passionate devotion."

In the chapter devoted to the ethnology of kissing, Mr. Fowler's research discloses that the kiss was unknown among the aboriginal tribes of America and Africa. He says:

"The Mongolian kiss, however, is not the same as that which prevails with us. In it the lips do not touch the surface of the person kissed. The nose is brought into light contact with the cheek, forehead or hand, the breath is drawn slowly through the nostrils, and the act ends with a slight smack of the lips.

"The Chinese consider our mode of kissing full of coarse suggestiveness, and our writers regard their method with equal disdain.

"Darwin and the other naturalists have attempted to trace back the kiss to the act of the lower animals who seize their prey with their teeth," etc.

The Terrible Turks have a proverb which our author quotes with seeming approval. "Kiss ardently the hand you cannot cut off."

Whoever has a long enough memory will recognize the symptoms attendant upon the first kiss, as set forth by the learned Prof. Fowler, at his heart-to-heart clinic. He indites:

"Oh, ye gods, how do I feel? Her lips are softer than the leaves of the rose her mouth is as sweet as honey, and her kiss pains me more than a bee-sting. I have often kissed my kids; often I have kissed my little lambs,

but never then felt anything like this. My pulse strikes hard, my heart beats heavy, I feel like losing my breath, and still I only long to get another kiss. Monstrous, mystical pain! Has Cloe perchance been drinking poison before she kissed me? But, then, why is she not dead?"

As to stolen kisses Mr. Fowler is a little bit cynical. "If you kiss a young lady she calls it faith. If you kiss a married woman she calls it hope. If you kiss an old maid she calls it charity."

Stern John Bunyan though he dreamed dreams and saw visions, was not to be fooled by sophisticated kissers. He scored them, as Mr. Fowler shows: "And when they answered that it was but a piece of civility, I have made my objections against it; I have told them that it was not a comely sight. Some, indeed, have urged the holy kiss; but then I have asked them why they made balks?—why they did salute the most handsome?"

In vivid contrast with Bunyan's gray and sombre mind is Charles Dickens' praise of Norse osculation, which Mr. Fowler quotes:

"But of all the pleasant, tender, quaint, perplexing kisses, give me that strange salute which the Norwegian maidens bestow upon you after they have put you to bed, and tucked you well between the sweet-smelling sheets; for then, bending their fresh, fair faces, do they not kiss you honestly upon your beard, with no thought of shame or doubt?"

Also the Rev. Sidney Smith says: "There is much virtue in a kiss when well delivered. We have the memory of one we received in our youth, which lasted us forty years, and we believe it will be one of the last things we shall think of when we die."

SOCIETY WOULD CUT HARRY THAW'S WIFE

WINS HIS BRIDE BY A FAITHFUL MASHER FOLLOWS GIRL FOR FIVE YEARS.

NEW YORK, October 16.—"For five years this man has followed me almost constantly, and I have been afraid to go out of my house alone," declared Miss Louisa Harold, of No. 332 West Thirty-eighth street, who appeared in the West Side Court yesterday to prosecute Charles J. Shano.

The man, who says he lives at No. 177 Broome street, was arrested last night at Thirty-eighth street and Eighth Avenue. He had followed the girl from Twenty-eighth street and Eighth Avenue, where she is employed as a stenographer.

Miss Harold offered in evidence this letter, which she said she had received from the prisoner:

I have had the pleasure of knowing you for years, and I have admired your splendid beauty. I do love you heartily and cordially, but I don't know how I can be acquainted with you, because I want to make to you a confession of my ardent love. Please tell me you will be my wife, and I shall be the most happy man in the world. I have the most honest purposes for you, and if I can have the happiness to marry you we will have the most beautiful life.

Answer me too soon, my dear, and believe me,
Your ardent lover,
CHARLES SHANO,
No. 234 Washington street.

Magistrate Baker held Shano in \$500 bail for his good behavior for six months.

Pittsburg's Smart Set in Revolt Over Meeting Former Chorus Girl.

SHE JOINS THE CHURCH Efforts of Rich Mother-in-Law to Introduce Her Cause Storm.

PITTSBURG, Pa., October 16.—Society is being organized into a revolt against the leadership of Mrs. William Thaw, because she proposes holding a reception this winter in honor of her daughter-in-law, Mrs. Evelyn Nesbitt-Thaw. It is whispered about at the various teas that scores of dames, with the smokeiest kind of blood in their veins, have decided to remain away from the reception and ignore the invitation. But Mrs. Thaw is not a woman to lay aside any pet plan, and there is going to be a reception, and her daughter-in-law will make her debut.

Since retiring from the strenuous life in New York, Mrs. Harry Thaw, former chorus girl and artist's model, has become a devoted member of the Third Presbyterian Church, this city.

The first time the younger Mrs. Thaw attended church, and entered the family pew following her mother-in-law, services were suspended for the time being, so far as the congregation was concerned, and all eyes were riveted on the beautiful Evelyn. She bowed her head devoutly on her hymn book during prayers, as if she had never known the lighter side of life in the metropolis.

But, in spite of the fact that Mrs. William Thaw has taken the social education of her daughter-in-law in hand personally, carping critics are opposed to nodding their plumed heads at the girl who had forced herself upward to a social scale equal to the best families of Pittsburg.

At a recent afternoon gathering of a number of well-known Pittsburg women, one guest declared that Mrs. Harry Thaw should not be tolerated among the exclusive set, and she urged every one to remain away from the function. A religious person quoted

the parable of the rich man who invited the wedding guests who were all too busy to attend, and finally he sent out into the highways and hedges and gathered in the halt and the lame and the blind, and hinted that Mrs. Thaw would be just the kind of a woman to take the hint from the parable.

Another suggested that Mrs. Thaw might send out the invitations make it clear that she intended her daughter-in-law to society, and thus many would be met her. Whatever Mrs. Thaw undertakes in a social way, her intentions will be looked on with suspicion.

Mrs. Thaw is building a future home of Harry Thaw wife.

THE UNSPOKEN WORD

There was a word for thee. My lips could not set free In this confused sphere. That word I yet must speak. However far I seek—

That word thou yet must hear! I past the throbs of time, The bounds of space, must climb, Since thou hast these outworn, With fated errand fraught, I seeking thee, thou, sought, We cannot be undone!

Thou, with no sense ear, My crying yet shall hear When lips of mine are dumb; That word thou canst not miss. It is because of this—

In immortality I trust. —Edith M. Thomas in Smart Set.

in the head is a common ailment, and it never stops there. It often grows stubborn and protracted, the membranes, or inner lining of the body, become inflamed and secrete an unhealthy matter which is absorbed by the blood and soon produces that disgusting disease, Catarrh. Then follow the unpleasant symptoms of "hawking and spitting," loss of appetite, mucus dropping back into the throat, and a feeling of general debility. Every day the blood becomes more heavily loaded with these poisonous secretions, and if the trouble is allowed to run on, the lungs become diseased from the constant passage of poisoned blood through them, and then Catarrh terminates in the most dreaded and fatal of all diseases, Consumption. The only way to get rid of Catarrh permanently is to cleanse the blood, and S. S. S. is the ideal remedy for this purpose. It soon clears the system of all impurities, purges the blood of all Catarrhal matter and poisons, and effectually checks the progress of this dangerous and far-reaching disease. S. S. S. keeps the blood in perfect order so that Catarrh cannot remain; and as this pure, healthy blood goes to every nook and corner of the body, the entire system is strengthened and invigorated, and the symptoms all pass away. ENDS LIFE WITH STRYCHNINE AGAINST UNION LABOR BANK

JOHN HAWK WOULD NOT GO HOME TO MOTHER IN IOWA. CHICAGO INSTITUTION LAID ON ALTAR OF FRENZIED FINANCE.

John Hawk, a race-horse player, committed suicide by taking strychnine in a room in the Clarendon Hotel Saturday night about six o'clock.

He came to the hotel Friday afternoon and asked the landlord, Harry Conunes, for a room. The landlord asked him no questions and did not know who he was. At five o'clock yesterday afternoon one of the girl's working at the hotel reported that she had not been able to open the door of the room. Conunes crawled through a window and finding that the man was dead reported to the police. There was nothing on the body that revealed the identity of Hawk. A glass with strychnine crystals in it was found. Detective Lynch was detailed on the case and found at the saloon at 851 Washington street letters and papers of the deceased.

From the letters and a shaving mug it was learned that the man's name was Hawk and that he was a shoer of race-horses and had received letters from his mother in Kirksville, Iowa, asking him to come home.

Mrs. Ella R. Luty of 1244 Poplar street is greatly exercised over the death of a valued white Newfoundland dog which died this morning of poison which was maliciously administered two weeks ago.

She says that about the same time that her dog became sick, J. P. Irish lost a prized St. Bernard of his which also died at the hands of a poisoner.

Mrs. Luty declares that her dog was a favorite with nearly all her neighbors and especially with the children. She is satisfied that the dog was poisoned but she can not state by whom although she knows that there are people residing in her vicinity who do not like animals.

ON EXCLUSION OF UNITARIANS

BALLSTON, N. Y., October 16.—Dr. James Winthrop Hegeman, rector of Christ Episcopal Church here, and the founder of church federation, in his sermon yesterday referred to the exclusion of the Unitarians from the inter-church conference. He deplored the raising of the "Ghost of Doctrinal Debate," and asserted that the word evangelical was a fetich with many, and worked out against the unity of the variety of citizens of the Kingdom. The use of this word made the evangelical alliance unable to realize its full mission. The Y. M. C. A., he said, did not succeed to any extent until it removed the conditions created by this word.

An attempt was made at the organization of the New York State Federation to put it in the constitution, but was defeated because it restricted the inclusiveness desired to secure the benefits of co-operation, and because it would reject Roman Catholics, Jews, Unitarians, Lutherans and Episcopalians, which, historically, are not evangelical, he continued. The assumptions in the rejection of any church on the ground of religion are themselves unchristian. The generalization based on the procession of the spirit of Christ as a criterion of citizenship has been shifted to the region of dogmatic tenets, he said, and the motto of some that Christianity is a creed, not a life, has seemed to oust the teaching that with "the heart man believeth unto life."

Dr. Hegeman believed the real reason of the discrimination against Unitarians must have been the desire to keep out an element which would "disturb thousands of the weak brethren and prevent their joining the federation." Such action would be wise were church unity in view in federation. However, it is unjustifiable. Viewing the aim and scope of the Federation, the action was that of ecclesiastical politics when the opportunity was at hand for statesmanlike measures, he said.

TALL CHILDREN MUST PAY FARE

NEW YORK, October 15.—The Swiss Railroad booking clerks have just been provided with machines for measuring the height of children traveling over their roads, and have been told that all children over three feet tall must pay full fare, says the Times.

In the summer months Switzerland is full of Americans, who are often accompanied by tall children who never appear to be over ten years of age. Ten years is the Swiss limit for half-fare. This has led to so many heated arguments in German and English that the Government has decided to introduce the measure system.

BIG VICTORY HUNTERS GET SCORED BY U. OF C. PLENTY OF GAME

BERKELEY, Oct. 16.—One of the hardest fighting teams ever representing a freshman class of the University of California, Saturday brought its heavier Stanford rivals down to defeat by the score of 6 to 0. They deserved their victory because of their indomitable spirit and aggressiveness. Not at any point in the game did they let a possible opportunity for scoring slip. Never did they waver even when the frenzied losers were making their last death struggle. When the supreme test came with Stanford but one foot to go, that never-say-die spirit of California's little team asserted itself, and the Cardinal full-back was thrown back for a loss, the ball was kicked out of danger and the game was won.

The play that gave California fresh hope their score was the most spectacular one of the day. Schaeffer, with seven minutes of play left, made a quarter back kick over the heads of the Stanford line and backs and past Holman on the quarter. Stanton was down upon the bewildered player and showing him against the ball, snatched the twisting pigskin almost from under his opponent's hands. He immediately touched down, directly behind the goal posts. Carl immediately afterward kicked the goal.

CLOSE TO GOAL.

In the next seven minutes of play the game was won again. Stanford in her last savage efforts for a while beat the California team down and it seemed as the end of the second half dragged out that a score must be made and that most unsatisfactory of things would result—the game. The card came on and, on crashing through the tackles, bucking everywhere and always gaining. Nearer and nearer they got to the white line until the bunch of players and the backs were standing behind their own goal line with the ball only a foot from it. Goodell, the full-back, was given the ball and leaped forward only to meet the backs of his own players, who had not moved. The California team, in a minute more the game was over, after Stanton had kicked the ball out into a safe field.

During the fifty minutes of actual play California gave team time and time again worked their way to within a striking distance of the Stanford line. Every failure to make a field goal spurred them on to redoubled effort and when the ball was kicked back among them they would again work their way back for another attempt.

AVERT DISASTER.
The ability of the winners to connect apparent disaster into a gain was remarkable. When the Stanford team kicked was attempted the ball slipped from Schaeffer's hand as he placed it. Nothing daunted, Stanton coolly snatched the leather and made a kick of 20 yards. The Stanford team was punting from ten to fifteen yards farther than Stanton, the California men in the back field would make up the difference on the running in the punts.

The California rooters realized that the first victory on California field had been won, they surged down upon the scene of the battle and serenade as they never serenade before.

AFTER THE GAME.
In celebrating after the victory had been assured there was no limit to the enthusiasm of the squad and the rooters. Coach Knibbs was seized by the team but had taught so well and borne in through the fight and won a great crowd of rooters swept down and took possession of the gridiron in a gorgeous serenade.

After crossing the field several times, the throng made its way to the gymnasium, where an impromptu rally was held in front of the building.

Coach Knibbs and his assistant, Dr. Griffin, each made a short speech, praising the work of the team and expressing hope for another victory on November 11.

Then the serenade was resumed and the way taken to the railroad station, where the departing visitors went on their journey amid triumphant cheers for California.

SQUAD AT BANQUET.

The freshman football squad banqueted at the California Hotel the evening after the game. Besides the squad there were present Coaches Knibbs and Griffin, Manager DeCato and his assistant, A. R. Callaway, and Trainers Christie and Haywards and P. N. Gray, '06, president of the A. S. U. C.

The joy of the squad found an echo in the speeches that were made by all these last mentioned men. The affair was in every way a fitting close to the great day.

CENTURY TEAM IN FOOTBALL GAME

The football team of the Century Athletic Club of East Oakland defeated the Presidio team of San Francisco in a hotly contested game Saturday afternoon, 6-0.

Although the soldiers had the advantage in weight, the Century team, by good team work and fast playing, was able to score early in the game when Thomas, right half, went around the end for a touchdown, and Hunter, full, kicked the goal.

Several times the Presidio was kept from gaining a touchdown, on one run by the splendid tackling of Donaldson, left end, and Hunter.

The Century team is a fast aggregation of players and can make it interesting for any team averaging 180 pounds. The line-up was as follows:

The exodus of duck and quail hunters from this city late Saturday and early Sunday morning for the hunting grounds was far greater than in any previous season at opening day. Last night many of the crack shots wended their way home, and with scarcely an exception the sportsmen had bagged "the limit" of birds.

Colonel R. F. McKilloan, Walter Haskell and W. Townsend returned from Marshes Landing with fifty six ducks each. They report the sport as first-class.

AT ALVARADO.
On the Alvarado marshes there were several large parties of hunters and most of them shot the limit. Among others who got fifty birds each were Frank Wilson, Pat Kisch, Dr. W. Merrill, Dr. H. F. Sullivan and J. Z. Mann. Otto Mieschko also shot over the Alvarado marshes and got a good bag of sprig and spoonbills.

MANY BOYS.
Former Sheriff Oscar Rogers, with dog and gun, spent four days on the marshes on the Alameda marsh and bagged a half-dozen rail. He found so many boys hunting apparently at random that he abandoned the marsh last night, mistaking for a bird and peppered with fire bird shot.

McCarthy and several friends enjoyed the first day's hunting and returned with heavily laden game bags. **SUSUN.** October 15.—Duck hunters on the Susun marshes were greatly surprised yesterday. Contrary to expectations, ducks reappeared all along the beach after having been scattered during the weather of the past two weeks, and limit bags were secured by every one. The San Francisco local train was over-crowded with hunters last evening, carrying no less than four or five thousand ducks with them.

LOCAL HUNTERS.
Frank Mackay, John Curdette and James Irvine, who shot on the Peyton ponds, each secured almost the limit of ducks. McKinnon, McKinnon, W. J. McKinnon and J. W. Burdham of the Oakland gun club, with preserves on the Pomasini tract, killed 135 quacks. Twelve members of the Field and Tule Club, near Cordell, scored a total of 144 ducks. Those who occupied the best blinds all got the limit. Major Duvalle and Bob Smith of San Francisco killed ninety-five ducks and twenty-two geese on the Plant ranch near Rio Vista.

Captain J. F. Seymour and A. Martin were hunting on the western side of the Pomasini ponds. Each of the three sportsmen killed fifty ducks before nine o'clock. The other two killed thirty-five and thirty ducks. The score of twelve quacks at the Belvedere Club on Joyce Island was 138. A. Van der Nulien and Charles Mayfield each got the limit.

NARROW ESCAPE.
Henry Bassford of Vacaville, a sportsman well known throughout the State, was hunting ducks on the Peyton ponds near Denver at 5 o'clock yesterday morning. He went to the grounds upon the invitation of Sheriff H. H. Bassford, who was hunting ducks in a boat with the guide, and was first but a few feet from shore when both oarsmen were shot down in about twelve feet of water.

Besides being a large man, Bassford was heavily clothed in a coat, trousers, boots and gum boots. He made a desperate struggle for his life when he reached the surface of the water, and by the aid of a rope thrown to him by the guide he was dragged ashore. There is a suspicion that the wrecked boat was impaled with a sharp nail, as it was in use only Saturday and was perfectly strong and safe. An investigation will be made at once.

DROPS DEAD.

SANTA CRUZ. October 16.—The first day of duck shooting this season was signalized by a fatality at Coronado's Lagoon near this city early yesterday morning. George H. Graves, a veteran hunter and former hotel-keeper in Hollywood, died suddenly of heart failure while shooting at a flock of ducks in the lagoon. He was an enthusiastic hunter and went out before daylight with a party of members of the Santa Cruz Gun Club, and it is thought the excitement of the occasion took much from him. He was 75 years of age, and previous to coming to this city had been in business many years in San Benito county, where he was a leader in Democratic politics.

HUNTER SHOT IN FACE.
ALAMEDA. October 16.—William Valencich, residing at 3221 Sacramento street, San Francisco, was shot in the face, neck and breast yesterday while hunting on the marshes, by another sportsman whose name has not been ascertained. A full charge of bird shot pitted the man's head, but he is not dangerously wounded. He was treated by Dr. L. W. Stigheim, and after his wounds were dressed he left for his home.

HUNTING AT HAYWARD.
HAYWARD, October 16.—Hunters returning last evening report that duck and quail, the season for which opened yesterday morning, are plentiful. Ducks are found on the Mount Eden marshes, and sportsmen who are used to handling the scatter shotgun had no difficulty bagging the limit. The total hunters found their sport in Redwood and Cull canyons and they found the birds in large numbers.

'SOCKER' AS A UNIVERSAL GAME

CAMBRIDGE, Mass., October 16.—The Pilgrim Association football players were the guests of President Eliot of Harvard yesterday and explained to him in detail the game of "soccer" football which they are to play today with the All-Boston team in Boston.

Cambridge, L. Milnes of the Pilgrims who has been in communication with President Roosevelt concerning the game will leave Boston tomorrow in company with Vivian Woodward, the English champion all-around player, to visit the President and try to enlist his co-operation in the attempt to make "soccer" a universal game in the American colleges.

FOR TENNIS CHAMPION LOCAL EXPERTS IN THE FINALS PERCY MURDOCK MAY WIN COVETED TITLE

Great Games Played on Park Courts Yesterday.

After some of the most interesting tennis ever seen on the Park courts, the bay counties championship singles tournament was completed to the final round, and but four teams were left in the doubles.

Only five tournament matches were played, but these brought out one of the largest crowds that ever witnessed the sport at the public grounds. It was not possible to complete the doubles to the semi-finals, as two of the players were in the singles.

The match in the semi-final round of the singles between Percy Murdock and Clarence Griffin was perhaps the most stubbornly contested one of the tournament. It went the full five sets and Murdock won largely through his superior tournament experience. In the tight places, which were numerous, Griffin was inclined to be too anxious, while Murdock took things in the coolest possible manner.

There was but little driving in the match. Both players were inclined to be careful and depended upon their chop strokes to win. Murdock went into the lead right at the outset, and it looked as though there would be nothing to it. He led 4-2, when, to the surprise of every one present, Griffin ran out the next four games and took the set. Murdock again assumed the lead in the second set, and this time he made sure of it by winning six straight games. At this stage Griffin seemed all in.

IN THIRD SET.
The real struggle started, however, in the third set. It was nip-and-tuck from start to finish, and was anybody's set until Murdock took the decisive point after Griffin had needed but one point to win on four different occasions. Murdock seemed to be resting up in the fourth set, while Griffin worked as hard as ever. The result was a 6-0 set for Griffin. Both were very tired for the final set, and Murdock lasted long enough to win. The complete score was 4-6, 6-0, 11-9, 0-6, 6-3.

The other singles match resulted in a victory in straight sets for Charles Foley over Nell Baker. The latter played good tennis, but his strokes were lacking in speed. Foley was particularly strong at the net, where he handled the clever lobs of his opponent in good shape. The score was: 8-6, 8-6, 6-3.

As was expected, R. N. Whitney and Charles Foley won their way into the final round of the doubles without any difficulty.

The first set was won by Whitney and Foley, 8-6, 6-3, 6-3. The second set was won by Schmidt and Rolfe, 6-4, 6-3.

Bakers outplayed their opponents at every stage of the final set, and won six straight games.

The remaining matches of the doubles and the singles will be played next Sunday.

In the semi-final round of the handicap doubles tournament at the California Club courts, Frank Mitchell and Herbert Long won from Charles G. Kuehn and H. Biddle, 6-4, 6-3.

Reserved seats are selling fast and a large attendance is expected.

George Simpson will referee.

SIX AMATEUR FIGHTS TOMORROW NIGHT

Tomorrow evening the West Oakland Athletic Club will hold its regular monthly boxing exhibition at the club's gymnasium. Six four-round amateur bouts have been arranged and a good show is expected.

The matchmaker has secured several new ringsters to meet with winners of the past month. The club managers expect a liberal attendance, as the matches are of the best.

The first go will bring out Kid Alameda of Oakland and Al Smith. These boys have been together before, but not in a ring. A knock-out is expected.

NEW COMES.
L. Wredman and Ed George, two new boys, will be on hand to settle who is the better of the two. The winner will again be an argument to the show.

The Tattoo Wonder will come in contact with Al Pacozch of the Sunnyside Club of San Francisco for four rounds. Pacozch has been seen before and this go should make a good one, as Tattoo is also there with the punch. Pacozch disposed of the Tattoo Wonder and is wondering what he will do this time.

COUPLE OF HUSKIES.
Jack Hughes of the Railroad Club will be heavily weighed in by two of the many art of self-defense as exemplified by four-round boxers. His opponent is Joe King, another husky from North Oakland. It is also there with a wallop. This being a heavyweight go, it should be interesting, as heaviest are the best of amateur ranks. They will weigh 165 pounds.

THE TRIBUNE BIKE RIDERS MEET IN RACE TONIGHT

The annual three-cornered relay race between the New Century Wheelmen, Oakland Wheelmen and California Cycling Club was contested on the mile track at Alameda yesterday.

The finish was perhaps the most exciting seen in a wheeling race in some time. In the final sprint of the last relay Dave Mainland, the crack rider of the New Century team, had just enough left to win from Percy Lawrence of the California Cycling Club by the narrow margin of three inches. Neilson, who was finishing for the Oakland club, was on even terms with Lawrence when he fell from his wheel in a faint. The strain had been too much for him, and his club was left to the mercy of the race.

On the second relay the Oakland and New Century riders jumped the California club man and gained a substantial lead. The Oakland team continued to improve as the race progressed, and by the time the sixth relay came around they pulled up on Oakland. At the start of the last relay Oakland was still in the lead, when Lawrence and Mainland started the second relay. During the race, the Oakland team got down to the hardest part of the journey, and on the sprint Mainland gained the slight lead which gave his club the race. Six men were on each team and each rode a distance of eight miles. The time of the race was 2 hours and 15 minutes.

PERCY MURDOCK of Alameda, who stands a good chance of winning the bay counties singles tennis championship.

Jack Halliday and Joe Shields will settle an argument in the show to find out who is the better of the two. Halliday at the last show knocked out Kid Britt and is now looking to dispose of his man in the same way.

MAIN EVENT.
The main event between Joe Riley and Ed Smith of San Francisco has caused some excitement among the fight fans, as these boys fought a draw in San Francisco some time ago. Riley is a clever and a clean little fellow, and will look on this side of the bay. His opponent is equally as good and is expected to give Riley a hard go.

The bout is alone worth the price of admission. Reserved seats are selling fast and a large attendance is expected.

George Simpson will referee.

RESULTS OF GAMES.
San Francisco, 2; Seattle, 1.
San Francisco, 6; Seattle, 1.
Portland, 9; Oakland, 1.
Portland, 2; Oakland, 1 (five innings).
Tacoma, 2; Los Angeles, 6.

STANDING OF THE CLUBS.

Club	Won	Lost	Pct.
Oakland	29	31	.487
Los Angeles	33	31	.516

PORTLAND, Or., October 16.—Portland won both games of yesterday's double-header with the locals. In the first game the locals took advantage of the curves of Oscar Graham and batted him in a liberal manner, annexing eight out of the nine runs while the southsiders were on the rubber. The fourth inning proved Graham's Waterloo, for in this session McCrea's men acquired six runs on five hits and a couple of bases on balls. Blexrud was sent in to relieve Graham, and held the locals down for the remainder of the game.

The second game was by far the better of the two, although by agreement the teams played only five innings. During the first four innings things assumed the hue of an Oakland victory, for by virtue of an error by Sweeney and two wild pitches on the part of Cy Ferry the visitors scored a run, but in Portland's half of the last inning McGeean led off with a hit which, with McGeean's sacrifice, Sweeney out an error by Richards, and Cy Ferry's long two-bagger over Van Houten's head, netted the necessary two runs to win.

One thing for which the Vanderbilt cup race is to be blessed, is that it has taught Long Islanders the joy of oiled roads. Nearly all the main traveled highways of Queens and Nassau counties, besides the Long Island race course, are now being regularly oiled and the residents lead dustless lives.

INDEPENDENTS WIN ONE MORE

In a game replete with interest from the umpire's "play ball" to the last put out of the day, the ever victorious Independents, or third team of St. Mary's College, defeated the fast D. & M. aggregation of West Oakland by a score of 11 to 3.

The game was a clever slab artist for the college lads, pitched his usual steady game, allowing his much heavier opponents but four scattered hits. Kingston, the opposing twirler, was touched up rather freely, twelve safeties being marked to his credit.

The Independents' stone-wall infield put up a wonderful specimen of the national pastime, Saunders, Hallinan, Dana and Roach holding in a faultless manner.

The game marks the fifth successive victory of the present season for the young collegians.

WANTS AUTO CUP OVER HERE

NEW YORK, October 16.—American automobile enthusiasts are already looking forward to bringing back the Vanderbilt cup, which was won on Saturday by Hemery of France.

In a conference with several automobile manufacturers, as well as a number of enthusiasts E. R. Thomas of Buffalo decided to give a cup to the winner of the 1906 elimination race, which will be held in this country next year to pick a team to go to France.

The manufacturers promised Mr. Thomas to start early to build cars that will bring the cup back to the United States.

"The reason this cup is put up," said Mr. Thomas, "is to get large number of automobilists interested and get them together long before the date of preliminary trials."

The choice of the elimination trials for 1906 will be made up at the next meeting of the automobile club of America.

With the Vanderbilt cup on the other side of the ocean, will it be as hard for the American builder to lift as the America's cup has been for the English yacht builders?

It is shortightedness to try to force down the retail price of motor cars. When they have to be made on a very small profit, the manufacturers will have no money to spend experimenting, but will continue reproducing fixed patterns and improvements will receive a severe check.

With recognition in Great Britain, France and Belgium as the national automobile organization of the United States, the American Automobile Association has entered upon a new career. Everywhere through Europe its touring members are now assured of the welcoming hand of fellowship, and all the little aids which automobilists most enjoy. The arrangements with the French, Belgian and English Club, will receive every possible courtesy at the offices of the American Automobile Association, at 28 West Forty-second street, N. Y.

In Europe the automobile is growing in favor. Even the prejudice of the old-time horsemen is fading. The speed laws are growing more liberal. History repeats itself and travels from East to West. Mr. Hayseed, Constable, your harvest days are numbered. Progress will catch you if you don't watch out.

It is evidently some distance yet to the fixed type of automobile. New cars for 1906 that are not mere modifications of current ones, are being announced at intervals by reliable firms and the changes are of a nature which indicate progress through experience. It is not as if there were not enough. Oldsmobiles running over the face of the earth, a new four cylinder model is forthcoming. New styles in the Franklin, Winston, Autocar and Knox, and among the early announcements and it is known that even the conservative Electric Vehicle Company, with its big and varied output, will introduce a new four cylinder Columbia of 20 horse power. It is interesting to note an apparent tendency toward a grouping of horse powers about the multiples of five. Runabouts are more uniformly from 7 to 10 horse power, combination cars with detachable tonneaus, from 14 to 16; light touring cars, 20 to 25; and big touring cars, 45 to 60. The scattering production of cars of 11, 12, 13, 17, 18, 22, 23 horse power, and so forth, seems to be decreasing and approximate standards are being recognized.

Funny thing this superstition in circles of high intelligence. Foxhall Keene made a mighty fuss about No. 13 till he got rid of it and then S. B. Stevens would not wear it, but decided to put a cross on his machine for identification. At 4 it had to be on both sides of the car. Mr. Stevens gave his machine the double cross, instead of No. 13.

French automobile makers say they have nothing more to learn from road races and advocate their abolition. If they would stick to this, and the American makers would indulge in thoughtful experience, the industry could be but the odds are in favor of the American.

The men out were Petrie, Lees, McArthur, Michie, Taylor, Milne, Russell, Ainsworth, Todd, Whyte, Shand, Bayne and McCallum. The Rovers will have a capital goalkeeper this year. Shand having placed his services for that position. He will undoubtedly give a goalkeeping display that will be soon to see, and it will be a goal that will be registered against him.

McCallum and Bayne are at present figured as the two backs to be in front of him. Both are top-notchers, and there will be some good full-back play with those pair working together.

The half-backs will most likely be Russell, Lees and Milne. It is a good trio. They are all young players, and full of the life of the position. It is a new one for Lees, but it is no exaggeration to say that he will be the best center-half in the league before the games have proceeded very far. Davie will have lots of opportunity to get some of his long shots through the opposing goal, and those are the kind that make good. Milne is another fine half-back, and will be a fine partner for Lees.

The forwards are a class lot, and include McArthur outside right, Petrie inside right, Ainsworth, center forward, Taylor inside left and Michie outside left. This is a fine line-up, and the club has assessed, and possibly the best combination front rank that is at present playing hereabouts. They are all good shots, play nice football and are exceedingly fast.

Other good ones the Abilene have are Lewis, Whyte, Todd, Gilbert, Moore, Colley, Lowcock, and several others.

The Eagles were expected to play a practice game with the Abilene yesterday, but failed to put in an appearance. Just as well for the Eagles, as they could not have beaten the team that were the maroon on old Freeman's Sunday, but on the other hand they might have benefited by playing against them, as their football experience still stands in need of trimming up a bit. However, they are said to have improved greatly this year from last, and have confidence in making a better showing.

ROVERS FORM A STRONG TEAM

The line-up on Freeman's Park yesterday morning by the Abilene Rovers football team gave a world of satisfaction to the management. There was no getting away from the fact that they were the most capable lot of players that have won the colors of the club since its organization.

They are a well balanced team, and in the forthcoming league they will be formidable. The forwards are undoubtedly a fast bunch, and know where the goal lies.

The scattering production of cars of 11, 12, 13, 17, 18, 22, 23 horse power, and so forth, seems to be decreasing and approximate standards are being recognized.

Funny thing this superstition in circles of high intelligence. Foxhall Keene made a mighty fuss about No. 13 till he got rid of it and then S. B. Stevens would not wear it, but decided to put a cross on his machine for identification. At 4 it had to be on both sides of the car. Mr. Stevens gave his machine the double cross, instead of No. 13.

French automobile makers say they have nothing more to learn from road races and advocate their abolition. If they would stick to this, and the American makers would indulge in thoughtful experience, the industry could be but the odds are in favor of the American.

The men out were Petrie, Lees, McArthur, Michie, Taylor, Milne, Russell, Ainsworth, Todd, Whyte, Shand, Bayne and McCallum. The Rovers will have a capital goalkeeper this year. Shand having placed his services for that position. He will undoubtedly give a goalkeeping display that will be soon to see, and it will be a goal that will be registered against him.

McCallum and Bayne are at present figured as the two backs to be in front of him. Both are top-notchers, and there will be some good full-back play with those pair working together.

NEWS OF THE DAY FROM THE SUBURBS

"CO-EDS" WILL SERVE THEIR OWN LUNCHES

MISS PHOEBE BINNEY.

Women Students Decide to Take Management Into Their Own Fair Hands.

BERKELEY, October 16.—The Associated Women Students, after discussing plans for serving lunches to the women at Hearst Hall, decided to take the management of the work into their own hands, and definite plans were made towards this end. Dr. Bancroft of the Department of Physical Culture will exercise general supervision over the preparation and serving of the meals, and women students will be employed to do the cooking and other work, but it is necessary outside help will be secured.

Miss Phoebe Binney, president of the women students, presided at the meeting. Miss Sprague, who acts as advisor to the women students, addressed the meeting, and in a short speech, said that a college, being a community by itself, should take care of its own affairs. She also expressed herself concerning the sensational college stories printed by San Francisco papers from time to time, and said everything possible should be done to suppress them.

It was also decided to make an attempt to secure special terms at the Piedmont Baths, so the women can have swimming privileges.

This led to the discussion of the formation of a U. C. women's swimming club, and it is almost assured that one will be organized in the near future.

Miss Edith Rickley, '07, and Miss L. D. Shuman, '08, were appointed as a committee to arrange for the new system of serving lunches. A committee was also appointed to try and secure rates at the Piedmont Baths, so that college women may have a tank reserved for their special use.

CHORAL SOCIETY GIVES UP THE GHOST

University Organization Decides to Merge Into Professor Wolle's Chorus.

BERKELEY, October 16.—The Women's Choral Society, by the adoption of the following resolution, has gone out of existence as an organization: "Resolved, That since the object of the Women's Choral Society has been fulfilled by the creation of a department of Music in the University, the society give up its individual organization to become a part of the University Chorus."

A committee of three was appointed to take charge of and dispose of the property of the society consisting of money, gowns and music. The money will be turned over to the secretary of the Board of Regents until such time as this committee decides upon the use to be made of it, and the Co-op will be custodian of the gowns until they are sold. When all of the property has been converted into cash it is very probable that it will be donated to the University for the purpose of establishing a library of music.

The president appointed a committee consisting of Professor Langer, Misses Dagmar White, '06, and Edith Rickley, '07, to attend to these matters.

A unanimous vote of thanks was tendered to Professor Senger, as advisor and to the officers, who were as follows: Dagmar White, '06, president; Dora Burdorf, '07, vice-president; Helen Mangels, '07, treasurer; Edith Rickley, '07, secretary. The society then adjourned.

MISS DAGMAR WHITE.

GOES TO ARIZONA TO ARGUE SUIT

PORTLAND, Or., October 16.—District Attorney Francis J. Heney, accompanied by his secretary, left last night for Tucson, A. T., where he goes to argue a civil suit. From there he will return to San Francisco and then go to Washington, D. C. During his absence the land fraud cases which he has been prosecuting with such vigor, will be at a standstill. He will return to Portland late in November.

The time for the trial of the next land fraud case will depend upon the future plans of Judge Hunt. It is expected that the next case to attract attention will be that of Representative Elmer Hermann, who is under indictment for conspiracy. There was talk of representative Hermann being tried in Washington, D. C., where he is under another indictment, but it is understood that the Oregon case will be taken up first.

Judge Hunt will leave for Butte today.

SONG AND DANCING

Fireman's Ball-- Picture Show-- Game Deputies.

HAYWARD, October 16.—Constable W. J. Ramage has appointed as deputy constables for the hunting season, Frank Dennis of Mt. Eden, for the care of the duck ranches, and Hamlin Hinkley to patrol the hills for quail hunters.

FIREMEN'S MASK BALL.

The coming social event will be the grand masquerade ball of the Hayward fire department, Wednesday evening, November 23. This yearly event of the fire boys brings out all our people, for they fully appreciate the splendid work of our brave firemen who risk their lives to save our property. By attending this ball they also help to swell the sick fund, the proceeds of which go to help take care of the boys in case they get sick or injured at fires. The firemen's masquerade ball on Thanksgiving eve is the event of the season, and on this occasion hundreds of valuable prizes are given away. This year the number will be the largest and finest ever given.

Following are the committees in charge:

Committee of Arrangements—J. A. Dale, Elmer Patterson, G. Luce, M. G. Riggs, M. Welsh.

Prize Committee—E. Patterson, J. A. Dale, George Luce.

Committee on Invitation—George E. Schilling, T. E. Dal, George Grindell.

Floor Committee—C. M. Sorenson, A. Ross, George Omermuller, A. Horn, G. Hooson.

Reception Committee—W. Myers, John Carr, J. Tang, E. J. Obermuller, A. Ramage, W. B. Meyer, John Penn, Sr., J. McCoy, Joseph Godel.

SONGS AND PICTURES.

The Epworth League of the Hayward Methodist Church will give a stereopticon and moving picture entertainment in Native Sons' hall, Wednesday, Thursday and Friday evening of this week, with illustrated songs, such as the "Holy City," "Hello, Central, Give Me Heaven," etc. Admission will be free the first night.

SALE OF AUSTIN HOTEL.

The old Austin Hotel property, including the two-story building occupied by William Darr and family, of Main street, has been sold to a brother of B. Abrams, the furniture dealer, for \$6000, through Ed Warren.

Mrs. Maria Isabel Berry, who passed peacefully at her home in San Lorenzo Wednesday last, was one of the pioneer women of California, coming here in 1853, being united in marriage to Frank Berry in the year 1854. They spent about eighteen years in Santa Clara county, four years at Half Moon Bay, and in 1877 located in San Lorenzo where she remained until her death. She made many friends while she lived by her kindly and affectionate nature and sympathy for all in need. She was a fond and devoted mother to her family and was ever ready to lend a helping hand to the needy. She leaves five children, three sons and two daughters, viz: Mrs. Mary J. Olivera, of San Lorenzo; A. L. Berry of Hayward, Frank Berry of Piedmont, Mrs. Bell Olivera and J. W. Berry of San Lorenzo.

John Muir has returned from Salt Lake to pass the winter in Hayward. Mr. and Mrs. Henry Payot have returned to San Francisco for the winter.

On Saturday afternoon, October 28, Hayward High and the Commercial High school of San Francisco, football teams, will play a return game on the Hayward grounds, proceeds of the game to be given toward purchasing books for the Hayward public library.

BAZAAR FOR THE MINSTREL SHOW

AN INTERESTING AFFAIR PLANNED BY PLEASANTON PEOPLE.

PLEASANTON, October 16.—The bazaar and entertainment given by the ladies of the Catholic Church beginning on Friday afternoon and closing Saturday evening was very successful in every way and the ladies will clear several hundred dollars for the benefit of St. Augustine's parish residence. The success of the affair was largely due to the following ladies: Mrs. Geo. Johnston, Mrs. Wm. Donahue, Mrs. Ed Green, Mrs. Larkin Lock, Rita, A. H. Bernal, Mrs. Frank Nevis, Miss Florence Roidy, Miss Lizzie Lester, Miss Edora Lock and Miss Carrie Lewis.

ELECTED TREASURER.

On Sunday evening a congregational meeting of the Presbyterian Church was called to elect a treasurer to fill the vacancy caused by Mrs. Robert Mills who has been treasurer for several years, moving to San Francisco. Dr. S. J. Wells was elected to this responsible position.

Frank Lewis one of the leading citizens who has been very ill for the past three weeks was taken Saturday to Palmdale Hospital for treatment.

Willie Gale, nephew of T. W. Harris, is very ill at the home of his grand parents, Mr. and Mrs. Wm. Harris with attack of typhoid fever.

Miss Annie Davaney came from San Jose and spent Saturday with her aunt, Mrs. Geo. Johnston.

Mr. and Mrs. Joe Arendt left Saturday for a three weeks visit to Portland and to different parts of Washington.

BOY BITTEN BY WILD DOG IN ALAMEDA

Mangled and Bleeding From Many Wounds, Walter Themler is Saved From Death.

ALAMEDA, Oct. 15.—While viciously attacked by a ferocious great Dane dog yesterday morning, Walter Themler, aged 10 years, while visiting his aunt, Mrs. Louis M. Ritzau of 823 Taylor avenue, at the West End, was frightfully mangled by the animal, and had it not been for a heroic rescue on the part of his cousin, Miss Edith Ritzau, aged 23 years, who tore the boy and also her mother from the maddened beast, the result might have been very serious. As it was, the child escaped from the great Dane, bleeding from many wounds. The animal was later shot.

Young Themler, who lives with his parents on Eleventh avenue in the Sunset district, San Francisco, came here yesterday morning to spend the day with his relatives. While playing in the back yard he ventured into the large wire inclosure in the rear where the dog was kept. Released from the kennel, the animal approached the lad, growling ominously. Mrs. Ritzau saw her little nephew's danger, and called to him to quietly leave the inclosure. Paralyzed with fear, the child seemed unable to move.

Mrs. Ritzau ran to rescue the boy just as the monstrous dog, having crouched for a spring, bounded upon him. He had sunk his fangs in the child's leg and hung on with a vice-like grip. The boy was maddened by the scene of blood, and bit and mangled the little fellow in a horrifying manner.

It was at this critical moment that Miss Edith Ritzau ran to aid her mother and cousin. Intrepidly entering the inclosure, she succeeded in pulling the little lad from the grasp of the dog and thrust him outside the gate to safety. While keeping the enraged animal at bay, she managed to get her mother outside the inclosure. Her father then ran to save her from the fury of the dog, and none too soon, for already her clothing was torn in battling with the great Dane. Springing a rake, Mr. Ritzau was enabled to beat off the animal.

The injured boy was carried into the house and Dr. A. A. Stafford summoned to attend him. It was found that his right leg had been cruelly lacerated by the dog's teeth, one gash requiring eight stitches, while his left leg was also bitten in several places and his right arm mangled. Some of the tendons in the right leg had been laid bare and torn by the dog. The animal stood 35 inches high. It had been raised as a pet, having been in the possession of the family since it was five months old, and was considered harmless. After the occurrence the permission of the police was secured and the vicious beast dispatched.

The injured boy's uncle is a well-known musician of San Francisco, being the manager of the La Boheme music hall on O'Farrell street, across the bay.

FORMER YELL LEADER WEDS STUDENT

EDWIN R. RUST.

Edwin R. Rust Marries Clara Cooper But Announcement of Wedding is Deferred.

BERKELEY, October 16.—The college community was surprised to learn that Miss Clara Louise Cooper, '07, and Edwin R. Rust, '06, had been quietly married on the 27th of September. The ceremony took place at St. Francis Church, Oakland, Rev. Father Mcweeney officiating. On account of the popularity of both parties the wedding has occasioned unusual interest.

Mrs. Rust is the daughter of Kemp Cooper, editor of the Colorado News, of Denver. She has been prominent in

dramatics since she entered college, and is a member of the Mask and Dagger. The role of Lucretia will be played by her in the forthcoming production of "Paula and Francesca."

Edward Silliest Rust was one of the most prominent members of the senior class up to the time that he discontinued his college course a few weeks ago. With Walter De Leon, he was elected a yell leader at the beginning of this term. He has also been identified with dramatics during his college career.

The happy couple will make their home in Oakland and Mrs. Rust will complete her course at the University.

KOMURA SEES THE EMPEROR

HIS RECEPTION AT RAILROAD STATION NOT ENTHUSIASTIC.

TOKIO, October 16, 4:30 p. m.—Baron Komura, the Foreign Minister, who acted as chief plenipotentiary for Japan, arrived here today from Vancouver, B. C., October 3. His reception at the railroad station was not enthusiastic, those present being principally Government dignitaries. The streets were strongly guarded by the troops, police and gendarmes. The baron drove to the palace in an imperial carriage.

TOKIO, October 16, 6 p. m.—The Emperor showed exceptional honor to Baron Komura by despatching to Yokohama, where he landed from the Empress of India, Colonel Inouye, his Majesty's aide-de-camp, who went alongside the steamer in a despatch boat, and brought Komura ashore. Baron Komura landed at the Imperial enclosure. While the baron was on his way to Tokyo by train, Colonel Inouye constantly kept at Komura's side and on arrival here they drove together to the palace in an imperial carriage sent from the household stables.

DOG CAUSE OF ACCIDENT

SAN DIEGO QUAIL HUNTER IS INSTANTLY KILL-ED.

SAN DIEGO, October 16.—The first day of the quail season in San Diego was marked by one death and several more or less serious accidents.

Richard Bridgewater, a well known restaurant man of the city, was instantly killed by the accidental discharge of his shotgun, probably by his dog jumping into his buckboard.

He drove out with his son-in-law, William McMahon, to look for quail. At the entrance to Horse Canyon McMahon got out of the buckboard to walk along one side of the canyon, and the dog went with him. As the dog did not work well in the thick brush, McMahon sent him back to Bridgewater.

A few minutes later he heard the discharge of a shotgun and turned in time to see the dog jump from the buckboard as Bridgewater fell out. He hurried to Bridgewater's aid, but life was extinct when he reached his father-in-law's side.

It is supposed that Bridgewater, in moving to make room for the dog, discharged the weapon himself. The full charge of shot struck Bridgewater in the back of the head. He leaves a widow and a daughter, Mrs. McMahon.

MEN OF THE SOUTH OFFER VIOLENCE

COLUMBIA, S. C., October 16.—Thomas Dixon, the novelist and playwright, escaped mob violence in this city early Sunday morning after the performance last night of his new play, "The Clansman," dealing with negro rule in South Carolina during the reconstruction period, only by locking himself in his room in his hotel. The play had been heartily hissed by the large audience which gathered, and later, when a number of young men prominent in society and business life gathered in front of the hotel with hostile intent, and sent up a note asking the playwright to come down, he suspected their purpose and refused.

Balked in their purpose of doing him bodily injury, the young men drew up a set of resolutions setting forth in unmistakable terms, their opinion of the author and his play, and had them sent to his room. The audience was composed almost entirely of white people, there being scarcely a dozen negroes in the gallery. From these there were no demonstrations. The auditors were all Democrats, so there could be no charge of partisanship.

PASTOR DIES VERY SUDDENLY AT HOME

HARRISBURG, Pa., October 16.—Rev. Dr. O. M. Gilbert, pastor of the Zion Lutheran Church of this city, and one of the foremost Lutheran clergymen in the country, died suddenly today of angina pectoris.

He had repeated the whirlwind; the red light district knew him as a good fellow. He had trodden the primrose path of means, wine, women, debauchery and disgrace. When he had dissipated all his energy, sapped his strength, wasted his money, he was no more made welcome in the haunts where money is the only passport. Today the big cities are ruling the nation, and it does seem that the greater the population the viler and more vicious the cities become. The congestion, poverty, crime and corruption in politics are problems for consideration needing brace, patriotic, God-fearing men to solve.

"Police departments are in close touch with all the elements that debase and degrade humanity, and when properly governed can do much to prevent crime and elevate morals. My long experience has taught me how ineffectual is the work of a corrupt politician if he cannot control the police. With the police with

418-424 FOURTEENTH STREET, OPPOSITE MACDONOUGH THEATRE

SCENE IN THE CHAPERONS.

PLAYS AT THE MACDONOUGH

"THE CHAPERONS" WILL BE SEEN AGAIN THIS EVENING.

This is to be a week of musical comedy at the Macdonough Theatre; there is "The Chaperons"—the last performance of which will be given this evening—then on Tuesday and Wednesday there will be presented "The Sultan of Sulu," and on Thursday, Friday and Saturday "Peggy from Paris" will be the offerings. The two last-named are the work of George Ade.

A large audience appreciated "The Chaperons" at the Macdonough Theatre last evening for the opera is presented with plenty of catchy music, jokes and pretty costumes. The comparison attended by the long-suffering audience between "The Chaperons" and "The Sultan of Sulu" is a laugh-provoker in itself and the comedy athletic stunts of the latter are as funny as they are difficult.

The company and chorus is exceedingly well-balanced and leaves a good taste in one's mouth for the good musical attractions that are to follow this week.

THE SULTAN OF SULU.

One of the pleasant features of the musical week at the Macdonough will be the engagement of "The Sultan of Sulu," a musical satire is from the pen of George Ade, of "Fables in Slang" fame, and the music which is both tuneful and catchy is by Alfred G. Wathall. Seats now on sale.

PEGGY FROM PARIS.

"George Ade's musical hit, "Peggy from Paris," is almost certain to be received with pleasure by all patrons of the theatre who delight in musical comedy. And of musical comedies, "Peggy from Paris" is accounts from elsewhere as reliable, is one of the most delightful. New York, Boston, Chicago, and other cities in which it has been heard have pronounced unreservedly in its favor. In

IS ACCUSED OF A WOMAN'S DEATH

HYATTSVILLE, Md., October 16.—Winfield Scott Hancock, son of Colonel John Hancock, chief of the stationery department of the census office and nephew of the celebrated Union general, was arrested yesterday on a charge of causing the death of Miss Emma Smallwood, a servant employed in his father's house near here. A warrant has also been issued for Hancock's sister, Mrs. Amanda Mackall, as accessory. The death of Miss Smallwood occurred, according to the statement made to the Coroner's jury, on Thursday evening, shortly after her return, Mrs. Mackall saying the young woman had been absent for three days. Upon entering the home she complained of feeling ill, and a few minutes later fainted, dying in Hancock's arms, as he was carrying her to her room.

The doctors who performed the autopsy testified that the girl had, in their opinion, been dead since Wednesday, and that death had been caused by a criminal operation performed by some one possessing very little skill.

Colonel Hancock knew nothing of the woman's death until he returned from Washington, on Friday. He said his son had been a hard drinker. Winfield Scott Hancock is forty-two years of age, and is separated from his wife.

POLICE CAPTAIN ON SIN

W. J. PETERSEN OF LOCAL DEPARTMENT LECTURES IN SAN FRANCISCO.

SAN FRANCISCO, October 16.—The auditorium of the Young Men's Christian Association was packed yesterday afternoon by members and their friends, who gathered to hear the remarks of Captain W. J. Petersen of the Oakland police department. Captain Petersen through long connection with the police department was able to show his hearers many of the inner workings of corrupt politics and the conditions of a city in which the lid is off, as in San Francisco today.

In the course of his speech, Captain Petersen said:

"This great city with its many advantages, its commanding geographical situation and its intelligent people is bound to influence the Occident and the Orient; it has within its power the opportunities of great good or appalling evil. Upon the men of San Francisco will rest the responsibility for the future influence of this great city.

The other day a man died in your city. He had repeated the whirlwind; the red light district knew him as a good fellow. He had trodden the primrose path of means, wine, women, debauchery and disgrace. When he had dissipated all his energy, sapped his strength, wasted his money, he was no more made welcome in the haunts where money is the only passport. Today the big cities are ruling the nation, and it does seem that the greater the population the viler and more vicious the cities become. The congestion, poverty, crime and corruption in politics are problems for consideration needing brace, patriotic, God-fearing men to solve.

"Police departments are in close touch with all the elements that debase and degrade humanity, and when properly governed can do much to prevent crime and elevate morals. My long experience has taught me how ineffectual is the work of a corrupt politician if he cannot control the police. With the police with

him he can intimidate voters, permit the work of the grafter and the political rounder, control the backrooms of saloons and give the reward of immunity from punishment to those who have trained with his political machine for violation of the law. He can give special privilege to gamblers, pool sellers, keepers of houses of ill fame, thieves and blacklegs and can cause the blue-coated guardians of the peace to be deaf and dumb and blind as occasion makes it necessary for him to pay his political debts or to increase his political prestige.

CITY'S WEIGHT OF SIN.

"We read of the sin and crime of this city with passing emotion, but sometimes we are aroused from the calm that our own security gives at some particular gross violation of the law, but the stern sword passes. It is only when the keen blade of sorrow strikes our own heart, when the shadow of disgrace hovers over our own home that we are quickened into action, that we realize our responsibility; then we damn the administration and vote at the primaries.

"Do you suppose the saloon man who receives the bulk of his patrons' wages cares a rap whether the nearby butcher or grocer gets his money Saturday night? Will the pool-seller who makes up a sack to go to Sacramento to pay into the willing hands of some of our Legislators so that the will of the people be defeated, care if the money he is receiving should be used to keep the home over the family? Will the man who runs the fancy restaurant with those quiet back rooms, where your daughter is filled with liquor and ruined, care for the disgrace of your child or the anguish of your wife? Do any of these easy money tribes care if our insane asylums are filled, our prisons and our poorhouses overflowing with the freight of wrecked, diseased, sin-laden lives, our morgue the finish of so many tragedies?

"So long as money is easy, it matters not to them what tears and blood are shed to pay the cost. Think of the sacrifices of morals, the degradation, the crime, the misery that those misguided creatures pay to furnish luxuries to corrupt officials to furnish the means to the briber and the corruptionist. And so long as the people sit idly by and permit these conditions to continue so long will the lid be off San Francisco, so long will the people pay a costly price to have a wide-open town, so long will San Francisco give joy to the forces of Satan and be the center of hell.

POWER OF THE POLICE.

"There is no good reason why this city should not be clean, and it is in the hands of young men to make it so if they desire. The 650 men in the police department can clean up this town and make it as wholesome as any city in the country. I believe that the great majority of the members of the police department are honest men and would rather perform honest, effective duty than not do it, and I know that if the orders were given without a string to them that within sixty days they could and would drive every violator of the law, every pool-seller, gambler and thief out of business. But to bring this condition of public decency to pass, you would need a Police Commission that would say to the Chief of Police, captains, lieutenants, sergeants, corporals and patrolmen, "Do your sworn duty, clean up the town or we will dismiss you from the department!" You would need a Mayor who would say to the Police Commissioners, "The Police Department is in your hands. A disgraceful condition exists here; you must see to it that the police department does its full duty and if you do not it will be my painful duty to remove you from office so that I can secure men who will obey my instructions." Then above all these you need an awakened public conscience.

"Common honesty should be the foundation of our politics and men should not follow the dictates of party unless it is right. We may disagree as to a political doctrine, but we need never disagree when a condition of affairs presents itself that is ruinous to the moral life of the community. Then we should lay aside our partisanship, and all good men of whatever political name should unite in a common cause for the protection of homes and families, and for civic decency and honor."

FORBIDS CRITICISM IN JAPAN'S ARMY

TOKIO, October 16, 3 p. m.—M. Teramoto, Minister of War, has issued an order instructing the Japanese army in the field to abstain from criticising the terms of peace on the grounds that the declaration of peace and of war are entirely the outcome of sovereign power. His order forbids the criticism of either subject especially by those engaged in military service. He advises the soldiers to utilize the opportunities of peace after the disbandment of their regiments by engaging in their respective occupations, always holding themselves in readiness to join the colors at the Emperor's command.
